### 1. Object of the report

This explanatory report is made by the Board of Directors of IBERDROLA, S.A. (the “**Company**” or “**Iberdrola**”) in accordance with the provisions of Section 529 *decies* of the *Companies Act (Ley de Sociedades de Capital)* in relation to the proposed re-elections as directors of Mr Juan Manuel González Serna and Mr Francisco Martínez Córcoles, with the classification of independent and executive director, respectively, as well as the proposed ratification of the interim appointment (co-option) of Mr Ángel Jesús Acebes Paniagua and the re-election thereof as independent director.

In the proposals regarding the re-election of Mr Juan Manuel González Serna as independent director, as well as the ratification of the interim appointment (co-option) of Mr Ángel Jesús Acebes Paniagua and the re-election thereof as independent director, the Board of Directors has taken into account the conclusions set forth in the corresponding proposals of the Appointments Committee dated 10 May 2021, which are attached as annexes to this report, in favour of the ratification of the interim appointment of Mr Acebes Paniagua and the re-election of the two candidates as independent directors of the Company.

The Board of Directors shares the conclusions set forth in the report of the Appointments Committee dated 10 May 2021, which is attached as an annex to this document, in favour of the re-election of Mr Francisco Martínez Córcoles as executive director of Iberdrola, which generally highlights his in-depth and well-versed knowledge of the businesses of the Company and its group and his tremendous decision-making abilities, as reflected in the excellent results of the Iberdrola group.

The Appointments Committee also favourably assessed the continuity of Mr Juan Manuel González Serna, Mr Francisco Martínez Córcoles and Mr Ángel Jesús Acebes Paniagua, as directors based on the corresponding positive evaluation of their performance and dedication to the position during their entire term, their strategic vision and decision-making capacity, and the continuation of three quite valuable profiles for the Board of Directors, with a broad understanding of the Company, of the Iberdrola group and of the businesses thereof.

In the case of Mr Ángel Jesús Acebes Paniagua, who was already a director of the Company between 2012 and 2019, the Appointments Committee also took into account the good results obtained by Mr Acebes Paniagua in the evaluations of his performance as a director of the Company and his dedication to the position during his prior term as a member of Iberdrola’s Board of Directors.

The proposals and the reports of the Appointments Committee, which are attached as annexes to this document, contain the information required by article 14.2.d) of the *Regulations for the General Shareholders’ Meeting* in relation to the three candidates.

With the proposed re-elections of directors submitted to the shareholders at the General Shareholders' Meeting, the Board of Directors would be comprised of fourteen directors, ten of whom will have the status of independent director (71.43% of the total directors), two of whom will have that of executive directors (14.28% of the total) and two of other external (14.28% of the total).

The Board of Directors, with the advice of the Appointments Committee, finds that with the process of selecting the three candidates does not suffer from implicit biases that might entail discrimination of any kind, and with the aforementioned proposals and report prepared by said committee, weighed as a whole, there is a strengthening and consolidation on the one hand of the high level of independence of the Board of Directors, and on the other of the diversity of skills, knowledge, experience, origin, nationality and age within the Board of Directors required for the best performance of the duties entrusted thereto, in accordance with the Sustainable Development Goals (SDGs) approved by the United Nations.

## **2. Competence, experience and merits of Mr Juan Manuel González Serna, whose re-election as a director is submitted to the shareholders at the General Shareholders' Meeting**

The competence, experience and merits of Mr Juan Manuel González Serna, whose re-election as a director is submitted to the shareholders at the General Shareholders' Meeting, are described in detail in the proposal of the Appointments Committee attached to this report.

Based on the information set out in the proposal submitted by the Appointments Committee, the Board of Directors has been able to verify that the candidate continues to have the competence, experience and merits required to hold the position of director.

Specifically, the Appointments Committee has quite favourably assessed the broad experience and professional track record of the candidate in business management and his proven entrepreneurial capacity (he founded Grupo Siro in 1991), as well as his training and his in-depth and well-versed knowledge of the Company, of the Iberdrola group and of the businesses thereof acquired during his prior term within the Company, as well as at other companies of the group, which will allow him to continue to contribute quite positively to the operation of this corporate decision-making body.

The Board of Directors has also taken into account the good results obtained by Mr González Serna in the regular evaluations of his performance as a director of Iberdrola, which will allow him to continue contributing quite positively to the operation of this corporate decision-making body, and has also favourably assessed the commitment thereof to the inclusion of disadvantaged and excluded groups and those with differing abilities, which is in line with Iberdrola's social commitment as stated in the Governance and Sustainability System.

The candidate has been proposed based on the personal and professional qualities thereof. In particular, the Appointments Committee has verified that the candidate can perform the duties thereof without being constrained by relationships with the Company, its significant shareholders or the members of its management team, thus making the candidate deserving of the classification of independent director.

The competence, experience and merits of Mr Francisco Martínez Córcoles, whose re-election as a director is submitted to the shareholders at the General Shareholders' Meeting, are described in detail in the attached report issued by the Appointments Committee.

Based on the information set out in said report, the Board of Directors has been able to verify that the candidate continues to have the competence, experience and merits required to hold the position of director.

The candidate has been proposed based on the personal and professional qualities thereof, and will continue to be assigned the status of executive director, based on the executive duties he will continue to perform within the Company.

The foregoing, as well as the reasons advocated by the Appointments Committee for such re-election (which appear in the attached report and which this body endorses), leads the Board of Directors to believe that the re-election of Mr Francisco Martínez Córcoles as an executive director of the Company is justified and appropriate, and is convinced that such re-election will provide a continuation of the management of Iberdrola and the group performed so far.

It is also appropriate to note, as stated for the record by the Appointments Committee, that the reasons stated in such attached report, and particularly the skills and experience of Mr Martínez Córcoles, his ability to continue to contribute very positively to the operation of the Board of Directors and the maintenance of a very valuable profile due to his in-depth knowledge of the Company and its group, and particularly its businesses, support the proposed re-election of Mr Francisco Martínez Córcoles even if, during his new term as director, he ceases to hold the position of Business CEO and may be assigned to the classification of other external director.

### **4. Competence, experience and merits of Mr Ángel Jesús Acebes Paniagua, the ratification of whose interim appointment and re-election as a director is submitted to the shareholders at the General Shareholders' Meeting**

In particular, the Appointments Committee has very favourably assessed the candidate's extensive experience and professional career – especially in the public sector, which gives him tremendous knowledge in the regulatory and public institutional sector as well as in the private sector due to having provided advice as a lawyer to companies in the energy and the industrial and technology sectors – as well as his training and his in-depth and well-versed knowledge of the Company, of the Iberdrola group and of the businesses thereof, which will allow him to continue to contribute quite positively to the operation of this corporate decision-making body.

The Board of Directors has also taken into account the good results obtained by Mr Acebes Paniagua in the regular evaluations of his performance as a director of the Company, with respect to both his last appointment as well as his prior term as a director of Iberdrola.

The candidate has been proposed based on the personal and professional qualities thereof. In particular, the Appointments Committee has verified that the candidate can perform the duties thereof without being constrained by relationships with the Company, its significant shareholders or the members of its management team, thus making the candidate deserving of the classification of independent director.

#### **5. Contribution of the proposed candidates to the diversity of skills, knowledge, experience, origin, nationality, age and gender within the Board of Directors**

Considered as a whole, the three candidates allow for a strengthening of the diversity of skills, knowledge, experience, origin, nationality and age in the composition of the Board of Directors required for the best performance of the duties thereof, in accordance with the Sustainable Development Goals (SDGs) approved by the United Nations.

As described in the proposals and in the report of the Appointments Committee attached hereto, the three candidates have knowledge and experience in the main countries and sectors in which the Company's group does business, and they are respectable and qualified persons, widely recognised for their expertise, competence, experience, qualifications, training, availability and commitment to the duties of director.

Specifically, the various professional profiles and backgrounds of the candidates ensure the contribution of multiple viewpoints and guarantee an enriching debate and a decision-making process without implicit biases, and positively contribute to the operation of the Board of Directors.

Furthermore, the proposed re-elections of the directors achieve a diverse and balanced composition of the Board of Directors as a whole, based on the nature and complexity of the businesses of the Iberdrola group, as well as the social and environmental context in which it has a presence, and contribute to strengthening the diversity of skills, knowledge and experience, as well as of origins, nationalities and age.
