

# Advantages of photovoltaic solar energy

## 1 Inexhaustible and non-polluting

It does not consume fossil fuels and does not generate waste

## 2 Universal scope

Can be obtained anywhere in the world 365 days a year

## 3 Optimal for rural areas

A system suitable where power lines do not reach or are difficult to install

## 4 Storable

Allows the installation of batteries to store surplus electricity

## 5 Modulable according to need

It can be produced in small generator installations and in large photovoltaic plants

## 6 Green jobs

Contributes to the creation of green jobs and local economic growth
