Ignacio S. Galán – Executive Chairman of Iberdrola

So, the first one is we beat the record of investment, which is 13% more than previous year. We've already reached a profit of 4.3 billion, which is represent more than the previous year as well.

But I think they are another important thing that we've already pay 7.5 billion of taxes. We had already incorporated 4,700 new workers in the company. We have already beat the record of purchase almost 18 billion to almost 20,000 suppliers worldwide. And we beat again director of the decarbonizing. So, all those I think are the main, the main drivers of the company during last year.
