Ellie's Story - £40 million Fundraising Milestone for Cancer Research UK

Ellie Cook

I'm really proud to work for ScottishPower as together a company we've raised 40 million pounds for Cancer Research UK and we're not stopping there.

In May, I'm running race for life, doing the 10k, which for me will be in memory of my gran. She was diagnosed with lung cancer, stage four, so at the point there wasn't really too much that they could do and sadly she did then pass away.

I'll be trying to just raise as much money as I can. Nearly one in two people within the UK will get cancer, and that's terrifying, but it just shows why we need to keep fundraising, so maybe people like my gran could have fought a bit longer or, it could've been a bit easier for her.

Take care of the environment.
