

# Keys about environmental art

1

## Promote the use of environmentally friendly materials

**Natural raw materials** like sand, branches, leaves, rocks, feathers, etc. are used to make works of art.

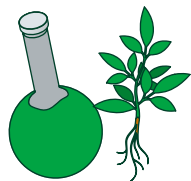

2

## Raise public awareness

Using a range of artistic disciplines to focus on nature and raise public **awareness on environmental problems**.

3

## Encourage research

Improve understanding of natural phenomena through **scientific illustrations** and interdisciplinary practices.

4

## Respect for the environment

Art made with **biodegradable and recycled materials** do not cause environmental damage and the works become part of their surroundings.
