

What can SOCIAL TECHNOLOGY HELP WITH?

Eliminate poverty and hunger

Contribute to the **eradication of misery** and increase food safety throughout the world.

Protect natural resources

Ensure that the entire population has **access to clean water** and renewable energies.

Guarantee healthcare and the right to learn

Ensure wellbeing and **lifelong access to quality education**, inclusive and equitable.

Encourage and foster a more ethical economy

Promote innovation, **responsible consumption** and sustainable production and guarantee dignified work.

Fight discrimination

Empower all women and girls, **achieve gender equality** and eliminate inequalities among nations.

Build more livable cities

Contribute to the development of communities and **urban centers that are more respectful** with the environment.

Protect the environment

Help combat climate change by **preserving nature and biodiversity** and fighting against desertification.

Promote peace

Help to achieve a **fairer and more peaceful world**, with more solid and democratic institutions.
