

HOW DO WE AVOID GENDER STEREOTYPES IN SCHOOL?

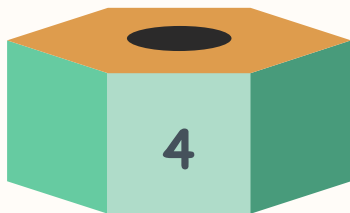

By encouraging cooperative, shared and **neutral games and toys**.

By including **the equality of women and men** in the center's educational project.

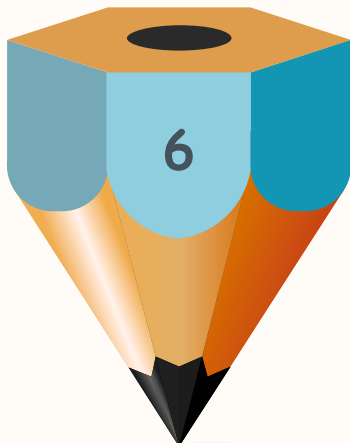

By **collaborating with families** and training them to avoid sexist behaviour.

By carrying out **periodic training** for coeducational teachers.

By choosing non-sexist **school materials** and educational projects.

By encouraging teachers **to treat boys and girls in the same way**.
