

# How will sea level rise affect these cities?

**Cadiz**  
(Spain)

The **bay of Cadiz** will be flooded, affecting areas such as the Port of Cadiz and nearby towns such as San Fernando.

**Liverpool**  
(United Kingdom)

Sea level rise will make one of the major British ports disappear: the **Albert Dock**.

**Amsterdam**  
(Países Bajos)

The Dutch capital, located three meters below the sea level, could lose up to **92% of its surface**.

**New York**  
(U.S.A)

New York authorities are working in a **25 years plan** to protect the city from the level rise.

**Cancun**  
(Mexico)

Some of the **most paradisiacal spots** (Playa Langosta, for example) of this Mexican tourist city will be under water.

**Rio de Janeiro**  
(Brazil)

The **beaches of Copacabana**, the airport and many Olympic structures could disappear under water.
