WAI activities*
to promote website accessibility

Promote **accessibility activism** through actions to encourage creation of accessible websites.

Open a **channel for Internet users** to send their comments and submit materials for public review.

Provide Internet users with **information to disseminate** the work of the WAI and creation of accessible websites.

Create **working groups** so that anyone can join WAI and help to develop accessibility guidelines.

*The Web Accessibility Initiative (WAI) is a World Wide Consortium (W3C) initiative that encourages a high degree of accessibility among people with disabilities.
