

LEADERS IN THE FIGHT AGAINST **CLIMATE CHANGE**

Iberdrola group is fully committed to the **Paris Agreement** and aligned with goal **no. 13 of the Sustainable Development Goals** – Climate Action – established by United Nations for the 2015-2030 horizon.

== **IBERDROLA GROUP'S CLIMATE-RELATED OBJECTIVES** ==

Carbon **neutral**
by **2050**

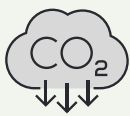

SCIENCE
BASED
TARGETS

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

Targets for scopes 1, 2
and 3 approved by the
**Science Based Target
Initiative** in March 2019.

== **LINES OF ACTION** ==

Contribute to climate
change mitigation and
decarbonization of the
energy model.

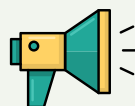

Supporting international
negotiations and the
significant involvement
of the private sector.

Holding on to the position as
global leader in renewable
energy, smart grids and
efficient technologies.

Integrate climate change
into internal decision-making
processes and long-term
risk management
for the group.

Fostering a culture that
promotes the efficient and
responsible use of energy.

Promoting Stakeholders
training and encouraging
suppliers to adopt
appropriate policies.

== **PROGRESS** ==

79% of the owned capacity installed by
the group is **free of emissions***

*At the close of the Fiscal year 2020.
