

## Voice-over for the video 'A day at work with... Leydslene in Corumbá'

**Leydslene:** 'My name's Leydslene. I'm a security technician in the Neoenergia group. Today I'd like to talk a little bit about our work and what I do in particular. My day-to-day work consists of prevention. Lots of people think that a TST's job is to protect workers, but at Neoenergia we do a lot more than that.'

'We seek to stimulate the culture of prevention with the aim of creating a healthy environment and guaranteeing the health and physical integrity of our colleagues, raising self-esteem, whether at work, at home or within society. We also collaborate to improve the company's work processes and make them part of our everyday. I'm proud to work at Neoenergia because it's a company that prioritises life and that's something objectively demonstrated in practice. I feel that the company recognises my work as a core task that brings together all the company's processes'.
