

# What is the Climate Group?

It organises world-renowned events such as **New York Climate Week** and the Energy Access Summit of India.

It meets and works with **the world's most influential political and economic leaders** to address the challenges of climate change.

Its objective is to accelerate climate action to **limit the increase in the earth's temperature to 1.5°C** and create a more prosperous world.

It drives renewable energy and **CO<sub>2</sub> emission reduction** with projects such as RE100 and LED scale-up.

It is an **environmental NGO founded in 2004** with offices in London, New York and New Delhi.

It publishes different reports and research on the **economic and environmental benefits of renewable energy**.
