**PURPOSE**

Promote the planting of 20 million trees by 2030

To capture ~ 6 million t of CO₂ in 30 years*, equivalent to those emitted by 6,000,000 diesel cars per 5,800 km

**TIMELINE**

- **2022**: 2.5 million
- **2025**: 8 million
- **2030**: 20 million

*Estimation based on 0.3 t of CO₂/sq ft in 30 years.

**TO OCCUPY AN AREA EQUIVALENT TO**

- **2022**: 3,125 football fields
- **2025**: 10,000 football fields
- **2030**: 25,000 football fields

**BRANCHES OF THE PROGRAMME**

**PRESERVING NATURAL HERITAGE**
Mitigate and offset the habitats affected by the occupation of new infrastructures.

**REPLENISHING AND CREATING NATURAL VALUE**
Correct forest loss by carrying out projects and initiatives to plant trees on land belonging to Iberdrola and on third-party properties.

**SOCIAL VALUE: RESEARCH AND AWARENESS**
Fostering shared knowledge by encouraging research projects with Stakeholders and developing awareness raising initiatives.

**IN LINE WITH THE MAJOR INTERNATIONAL STRATEGIES**
