

WIND POWER, KEY IN THE EUROPEAN GREEN DEAL

THE EU WILL HELP COMPANIES TO BE WORLD LEADERS IN CLEAN TECHNOLOGIES

- ✓ Investment in a sector recognised as strategic
- ✓ Renewable energy export strategy
- ✓ Continuous innovation in mature renewable energies
- ✓ Development of trade policies that reduce the cost of imported components

THE EU WILL ASSURE A JUST AND INCLUSIVE TRANSITION

- ✓ Financing for regions dependent on coal and heavy industry
- ✓ Promotion of a harmonious coexistence between renewable energy and other interests
- ✓ Professionally recycle workers affected by the transition

THE EU WILL BE CARBON NEUTRAL BY 2050

- ✓ Reaching 55% decarbonisation by 2030
- ✓ Solid implementation of energy and climate plans throughout the country
- ✓ Creation of clean electricity to cover at least 50% of the EU's energy
