5. Scope and Channels of Engagement 3
6. Dissemination 5
7. Coordination with the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors 5
ANNEX - Policy on the Payment of Attendance Bonuses and other Financial Incentives for Participation 6
The Board of Directors of IBERDROLA, S.A. (the "Company") has the power to design, assess and continuously revise the Governance and Sustainability System, and specifically to approve and update the corporate policies, which contain the guidelines governing the conduct of the Company and of the companies belonging to the group of which the Company is the controlling entity, within the meaning established by law (the "Group").

In fulfilling these responsibilities, and within the framework of the law and the By-Laws, the guidelines for conduct that take shape in the Purpose and Values of the Iberdrola Group, and its sustainable development strategy, the Board of Directors hereby approves this Shareholder Engagement Policy (the "Policy").

1. Purpose

This Policy is intended to encourage the engagement of shareholders in certain areas of its corporate life and, together with the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors, sets out the principles that should govern the two-way interaction between the Company and its shareholders.

The application hereof shall take into account the provisions of law and those contained in the Governance and Sustainability System and, in particular, in said Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors, as well as in the Code of Ethics, the Stakeholder Engagement Policy, the Regulations of the Board of Directors, the Internal Regulations for Conduct in the Securities Markets and the Internal Rules for the Processing of Inside Information.

2. Scope of Application

This Policy applies to the Company.

3. Main Principles of Conduct

The main principles of conduct on which this Policy is based are described below:

- a. a proactive search for two-way interaction between the Company and its shareholders in order to encourage their effective and sustainable engagement in corporate life and forge a sense of belonging, maintaining a constructive, ongoing and effective dialogue with them that helps align their interests and those of the Company;

- b. help the Board of Directors to become apprised of the shareholders’ opinions and concerns in the areas of corporate governance and the sustainable development strategy established at the Group level, such that it may take them into account in the performance of its duties;

- c. establish channels of dialogue and participation additional to the General Shareholders’ Meeting that, without detracting from the powers of the shareholders at such Meeting, allow for the encouragement of effective and sustainable shareholder engagement in the life of the Company; and

- d. respect equal treatment in the acknowledgement and exercise of the rights of all shareholders in the same situation and who are not affected by any conflict of interest or competition, establishing appropriate measures to avoid the communication of information that might give some shareholders a privilege or advantage vis-à-vis other shareholders or that might damage the corporate interest.

These principles shall apply to the ultimate beneficiaries, to the extent appropriate based on the circumstances of the specific case.

4. Competent Bodies

The duty of interaction with the shareholders falls within the exclusive purview of the Board of Directors, acting collectively, and of its chairman.

Both the Board of Directors and the chairman thereof may delegate the performance of this duty to the Finance, Control and Corporate Development Division (or to such division as assumes the duties thereof at any time) and therein to the Investor Relations Division (or to such division as assumes the duties thereof at any time), as well as to such other Company professionals as they deem advisable, in order for them to manage and promote the effective operation of the channels for shareholder participation. The persons to whom such duty is delegated shall periodically report to the chairman of the Board of Directors on the messages exchanged with the shareholders, as well as any other significant aspect noted during such exchange. The chairman shall in turn report thereon to the Board of Directors.

In line with the foregoing, directors do not constitute a valid channel of interaction for these purposes, and therefore, they have neither the duty nor the power to interact with the shareholders. However, if so resolved by the Board of Directors, its chairman or the Executive Committee, the lead independent director or the other members of the Board of Directors may engage in interaction with specific shareholders regarding issues relating to the Company’s corporate governance and sustainable development, although, as far as possible, the directors who will engage in such interaction shall belong to the committee in charge of the issues to be discussed.

In any case, the statements made by directors who have been assigned to interact with specific shareholders on the issues indicated above only bind the Company when they are expressly supported by a resolution or decision of the Board of Directors, the chairman thereof or the Executive Committee.
5. Scope and Channels of Engagement

Except as provided by law and in the Governance and Sustainability System, shareholder engagement under the provisions of this Policy shall be limited to the areas of corporate governance and the sustainable development strategy of the Company, both in Spain and in the other countries in which the companies of the Group have a presence.

Shareholder engagement in the Company shall in no event serve as a cover for conduct that is contrary to the corporate interest or that seeks the fulfilment of personal and individual interests not aligned therewith.

The Company shall establish the channels of participation through which it shall promote the involvement of its shareholders with the appropriate guarantees and coordination mechanisms and shall endeavour to take advantage of new technologies that make it possible to maintain contact and dialogue with as many of them as possible.

The Company has the following channels for shareholder participation in corporate life:

5.1. General Shareholders’ Meeting

The General Shareholders’ Meeting is the main channel for shareholder participation in corporate life. All duly accredited shareholders have the right to attend the General Shareholders’ Meeting, with no minimum number of shares being required for such purpose.

The Board of Directors shall encourage the informed and responsible participation of the shareholders at the General Shareholders’ Meeting as provided in the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors, and shall promote two-way interaction with the shareholders through the other participation channels in order to become apprised of the opinions and concerns thereof and take them into account when drawing up the agenda, preparing the proposed resolutions and making decisions regarding the other details and circumstances in connection with the holding of the General Shareholders’ Meeting.

The Board of Directors shall also actively promote shareholder participation at the General Shareholders’ Meeting and the ability of the shareholders to participate therein, pursuant to the provisions of law and the Governance and Sustainability System. For such purposes, it shall facilitate access to the documents in connection with the General Shareholders’ Meeting and the understanding of the information relating to the matters to be addressed therein, and may approve for each meeting the implementation of financial incentives, upon terms and conditions determined by the Board of Directors, in accordance with the policy on payment of participation incentives included in the Annex to this Policy. It may also carry out other proactive actions designed to encourage maximum participation of the shareholders, such as information campaigns.

If the meeting is held only in person or in person with the ability to attend remotely, it must take place at premises that offer the best conditions for the progress and monitoring thereof and that are located in the centre of the municipality where the registered office is situated. The Company shall provide appropriate means to facilitate entry to and exit from the premises where the meeting will be held by all attendees, and particularly, when reasonably possible, by those with reduced mobility or other forms of psychomotor function impairment.

If the General Shareholders’ Meeting is called to be held in person with the possibility of attending remotely or exclusively by remote means, the means of remote communication shall duly assure the identity of the shareholders and their proxy representatives. In addition, if the meeting is held exclusively by this means, the identity and legitimacy of the shareholders and their proxy representatives must be ascertained, and the attendees shall be allowed to participate effectively in the meeting by remote means of communication, including audio or video, supplemented with the ability to send written messages during the Meeting in order to exercise in real time their rights to speak, be informed, make proposals and vote, as well as to follow the presentations of the other attendees by these means.

Regardless of the manner in which the General Meeting is held, the Company shall adopt the measures required to allow the participation of shareholders with hearing or visual impairments at the General Shareholders’ Meeting. To this end, the meeting may be subject to simultaneous interpreting into Spanish sign language and electronic subtitling to facilitate monitoring thereof by persons with hearing impairments, as well as audio description for attendees with visual impairments. Shareholders with visual impairments who so request may be sent or provided the announcement of the call to meeting printed in the Braille system, as well as the delivery of any other document published by the Company on occasion of the call to the General Shareholders’ Meeting in a format compatible with voice reading systems.

Likewise, the Company’s innovation and digital transformation strategy, which affects all of its businesses and activities, including its corporate governance practices, promotes the digitalisation of both the General Shareholders’ Meeting event itself and the means made available for shareholders to participate, promoting and facilitating the use of internet channels and smart devices. As part of its innovation strategy, the Company applies advanced technologies, including blockchain technology to strengthen transparency and security in certain processes of the General Shareholders’ Meeting, and particularly the casting of votes remotely, allowing the registration thereof to be certified by means of an indelible blockchain that is integrated within the network on an encrypted basis, traceable, and without intermediaries.

Without prejudice to the provisions of the preceding paragraph, the Company adopts specific measures to ensure that shareholders who have difficulties accessing or making use of new technologies due to any circumstances can continue to participate in the General Shareholders’ Meeting without being adversely affected by the digitisation thereof.

The Company may ask a specialised external firm to review the proceedings of the General Shareholders’ Meeting in order to safeguard shareholders’ rights and transparency.

The Company also offers a live and recorded broadcast of the General Shareholders’ Meeting, in whole or in part, through its corporate website.
The General Shareholders’ Meeting is managed in accordance with the standards established in the Sustainable Management Policy as a sustainable event, encouraging the engagement of all affected Stakeholders of the Company and taking into consideration their needs and expectations.

Information is provided at the General Shareholders’ Meeting regarding the activities carried out by the Company in implementation of the provisions of this Policy.

Finally, if the General Shareholders’ Meeting is an annual meeting, additional presentations can be made or activities organised within the framework of Shareholder Day.

5.2. Support for minority shareholders (“OLS Shareholders’ Club”)

The Company uses the “OLS Shareholders’ Club” to actively encourage two-way interaction between the Company and the shareholders who voluntarily join such Club and are interested in such interaction.

For such purpose, among other activities, it organises events during which Company representatives and, on occasion, other notable persons, can exchange viewpoints with the members of the club and discuss matters relating to corporate governance and the sustainable development strategy of the Company.

“OLS Shareholders’ Club” has an interactive system available on the corporate website that actively encourages two-way interaction between the Company and the shareholders.

This interactive system can allow the shareholders (who may access with their user name and password) not only to view and request the information set forth in the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors but also to actively participate in meetings to be held electronically with Company representatives designated by the Board of Directors or by the chairman thereof regarding corporate governance, sustainable development and other matters that are significant for corporate life and which have an impact on its Stakeholders and on the communities and territories in which the companies of the Group have a presence.

The Company may set an annual schedule of electronic meetings with shareholders who have registered with the “OLS Shareholders’ Club” interactive system, setting forth the matters to be dealt with at each meeting.

All shareholders who have registered with the “OLS Shareholders’ Club” interactive system may participate in these meetings, which shall be moderated by a representative of the Shareholder’s Office.

The Company also has a telephone service line with a specific number (900 100 019), managed through the Shareholder’s Office, which constitutes a permanent information system for all shareholders, especially for those who have difficulties communicating using new technologies or prefer to continue interacting with the Company using traditional channels. Shareholders can keep informed of current progress of the companies making up the Group using the telephone service line upon the terms set forth in the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors.

5.3. Relations with Shareholder Associations and Institutional Shareholders

The Company acknowledges the importance of shareholder associations as a suitable vehicle for representation of retail shareholders and for transmission of their opinions and concerns regarding the Company’s corporate governance and its sustainable development strategy, appreciates the existence thereof, and respects the legal rights granted thereto.

In addition, the existence of institutional shareholders having a stable and continuous presence in the Company’s shareholder base is welcome to the extent it may allow for the creation of sustained value in the medium and long term, as well as the development of firm mutual bonds of loyalty that do not give rise to conflicts of duties or interest.

Without prejudice to the meetings or other contacts promoted by the Company, both shareholder associations and institutional shareholders may request, through the Investor Relations Division (or through such division as assumes the duties thereof at any time), the holding of meetings with Company representatives designated by the Board of Directors or by the chairman thereof, setting forth the specific matters to be addressed therein.

The Company will review such requests and will accommodate them when it so deems appropriate and provided that, in so doing, the provisions of this Policy are not violated.

In the event that the Company agrees to hold a meeting with a shareholders association or with one or more institutional shareholders, the Board of Directors or the chairman thereof shall designate, at a minimum, two representatives of the Company, who shall be informed of the specific matters to be dealt with and with whom the content of and the information that may be provided at such meeting shall be agreed, in order to avoid the transmission of information that might entail the granting of a privilege or advantage vis-à-vis the other shareholders or that might damage the corporate interest.

In addition to the foregoing, the Board of Directors or the chairman thereof may develop long-term engagement plans with shareholder associations and with those institutional shareholders that express their intent to have a stable and continued presence in the Company and may thus establish appropriate mechanisms for communication regarding the operations of the Company.

The Company shall provide information regarding the meetings to be held and the establishment of any engagement plans or communication mechanisms as provided in section 7 below.
5.4. Service through the Shareholder’s Office

The Shareholder’s Office, managed by the Finance, Control and Corporate Development Division (or such division as assumes the duties thereof at any time), is a permanent information system through which shareholders who voluntarily register in its database can be informed of the current progress of the companies making up the Group, all upon the terms set forth in the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors.

The Shareholder’s Office also serves as a channel of communication with those shareholders who have difficulties communicating using new technologies due to any circumstances or who prefer to continue engaging with the Company through traditional channels, such as telephone.

5.5. Awareness-raising and Involvement Workshops

Within the framework of the Stakeholder Engagement Policy, and in order to promote shareholder participation and engagement, the Company may encourage the organisation of awareness-raising and engagement workshops in thematic areas linked to activities of the Group’s companies, mainly in the area of the Group’s sustainable development strategy, in which case it shall inform shareholders through the Shareholder’s Office.

6. Dissemination

The Company shall disseminate through the corporate website all activities intended to seek the engagement of shareholders, and the ultimate beneficiaries to the extent appropriate, in the life of the Company conducted in implementation of the provisions of this Policy. The Company shall also report on the practical application of this Policy and the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors in the Activities Report of the Board of Directors and of the Committees thereof.

7. Coordination with the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors

All activities carried out through the participation channels described above and, specifically, the content of the information provided to the shareholders within the framework thereof, shall be properly coordinated with the content of the information provided and the communications made by the Company pursuant to the Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors.

The internal body of the Company responsible for this coordination shall be the Investor Relations Division (or such division as assumes the duties thereof at any time), which shall rely on the support of the Finance, Control and Corporate Development Division (or such division as assumes the duties thereof at any time) or of the Office of the Secretary of the Board of Directors when such support is required by the circumstances.

Additionally, the Investor Relations Division (or such division as assumes the duties thereof at any time) shall periodically report to the chairman of the Board of Directors regarding the conduct of the activities carried out in implementation of the provisions of this Policy. The chairman of the Board of Directors shall in turn report thereon to the Board of Directors or to the Executive Committee at such intervals as he deems appropriate.

This Policy was initially approved by the Board of Directors on 17 February 2015 and was last amended on 20 June 2023.
■ ANNEX

■ Policy on the Payment of Attendance Bonuses and other Financial Incentives for Participation

The Board of Directors shall encourage the participation of the shareholders at the General Shareholders’ Meeting through the establishment of a financial incentive. The amount per share of this incentive shall not exceed one and one-half per cent of the par value of the Company’s shares.

To this end, for each General Shareholders’ Meeting, the Board of Directors shall decide on the implementation of the financial incentive it deems most appropriate in accordance with this Policy, which may consist of the payment of an engagement dividend, an attendance bonus or other instruments that it deems appropriate.

The financial incentive for shareholder participation that is selected for each General Shareholders’ Meeting shall be stated in the announcement of the call to meeting.

If the incentive consists of an engagement dividend, the payment thereof shall be subject to the quorum for the General Shareholders’ Meeting reaching or exceeding the percentage pre-determined by the Board of Directors and all shareholders with the right to attend the General Shareholders’ Meeting shall be entitled to receive it. The engagement dividend may be charged to the results of the current financial year or the prior financial year or charged to the Company’s reserves.

If the incentive consists of the payment of an attendance bonus, the shares included in the list of attendees at the General Shareholders’ Meeting shall be entitled to receive it, although the Board of Directors, or the persons authorised thereby, may decide to pay said bonus to shares not included in the list of attendees, based on the entry of the holders thereof into the room after the quorum for the formation thereof is met or for other reasons beyond the control of the Company and the shareholder.

There may be an exception to the general principle of paying a financial incentive for participation, following a resolution of the Board of Directors, if advisable due to the financial situation of the Company or if there are objective exceptional circumstances causing the payment of such bonus not to be an effective incentive to encourage participation at the General Shareholders’ Meeting. In this case, the decision not to pay the incentive for a particular General Shareholders’ Meeting shall be set forth in the announcement of the call to meeting thereof and the rationale for the decision shall be described during the meeting. Furthermore, the re-establishment of the incentive may not be approved until the objective circumstances used as the basis for the suspension thereof cease to exist. In this case, the Board of Directors must explain the reasons motivating the decision on the payment thereof at the next General Shareholders’ Meeting during which the incentive is once again paid.

If the Board of Directors decides to propose for a particular General Shareholders’ Meeting an incentive that is different from the one proposed at the previous meeting that was held, it shall give an account of the reasons in the documentation made available to the shareholders on occasion of the call to meeting.
