

# The best destinations to be a digital nomad

## Tallin

Estonia

The capital of the **world's first digital country** boasts emerging digital businesses and reserves special visas for digital nomads.

## Lisbon

Portugal

A welcoming city that, after Google announced the establishment of its second largest operations centre in Europe, aspires to be a **technological benchmark**.

## Chiang Mai

Thailand

A paradise for anyone, but especially for digital nomads with its combination of cheap accommodation and fast wifi - but watch out for the **visa policy!**

## Seoul

South Korea

A futuristic, hypertechnological city full of **young entrepreneurs** with the fastest Internet access in the world.

## Las Palmas de Gran Canaria

Spain

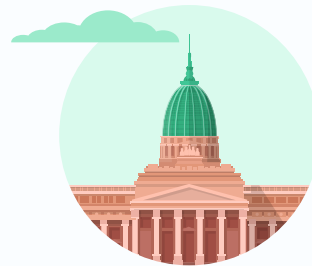

Its **excellent year-round climate**, a rarity in Europe, and the abundance of coworking facilities make it a very desirable destination.

## Tiflis

Georgia

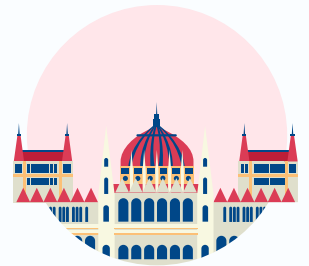

Georgia's capital is a dynamic city that **blends technology and tradition**, and accepts visa-free stays of up to one year.

## Buenos Aires

Argentina

Buenos Aires' busy and active **lifestyle** is ideal for a digital nomad. In addition, the city government encourages entrepreneurship.

## Budapest

Hungary

On the banks of the Danube stands a city with **affordable prices** that has nothing to envy to other great capitals such as Paris or Brussels.
