

How do we avoid gender stereotypes in school?

1

By encouraging cooperative, shared and **neutral games and toys**.

2

By including **the equality of women and men** in the center's educational project.

3

By **collaborating with families** and training them to avoid sexist behaviour.

4

By carrying out **periodic training** for coeducational teachers.

5

By choosing non-sexist **school materials** and educational projects.

6

By encouraging teachers to **treat boys and girls in the same way**.
