

Hello:

In recent weeks, Iberdrola has been present at some of the leading international events focused on energy, sustainability and the future. The Group, led by our [executive chairman](#), Ignacio Galán, stands today as **a global reference in the drive to electrify the economy**.

At the Climate Summit 2025

Ignacio Galán was one of the few senior executives from major companies invited to [the summit of heads of state and government](#) convened for the Climate Summit 2025 (COP30) in Belém, Brazil. There, he shared the stage with numerous world leaders, including the president of the European Commission and the UN secretary-general.

During his participation in the panel on the energy transition, Galán argued that [economic and environmental sustainability are fully compatible thanks to electrification](#), highlighting the need to invest in electricity networks, expand renewables and accelerate energy storage.

We present *Noronha Verde* and announce a major financing agreement

Coinciding with COP30, Galán presented the *Noronha Verde* project, which [strengthens Iberdrola's leadership in clean-energy electrification in Brazil](#). This initiative, in which we will invest more than €7 billion over the next five years, will turn the island of Fernando de Noronha into the first inhabited oceanic island in Latin America to operate with a highly sustainable energy model based on solar power and battery storage.

During the global summit, our Brazilian subsidiary also announced a [green financing agreement for €300 million](#) signed with the EIB – the investment arm of the European Union's bank dedicated to development – to modernise the electricity network in Brazil.

Enlit Europe 2025

In Europe, we took part in Enlit Europe, the [largest international fair dedicated to electrification](#), which this year was held in Bilbao, home to our registered office. Our [Chief Executive Officer](#), **Pedro Azagra**, attended the event together with numerous executives.

The CEO of Iberdrola España, **Mario Ruiz-Tagle**, opened the event alongside a number of authorities. We also took an active role in conferences on innovation, smart grids, electrification and electric mobility, reinforcing our position as *Green Electrification Partner* of the event.

Global Supplier of the Year Awards

Lastly, during the Enlit Europe congress in Bilbao, [we presented our Global Supplier of the Year Awards](#), recognising the excellence, innovation and sustainability of our partners worldwide. The 2025 awardees included KIRBY, AWS Amazon, Artech, Andritz Hydro and KONČAR, companies that contribute to industrial development, electrification and job creation.
