

# Sustainability in Iberdrola

125 Iberdrola  
Results presentation  
First quarter  
29 April 2026  
Sustainable Event

## We are making good progress on our roadmap

## Initiatives during the period

**Boosting electricity as a safe, self-sufficient and competitive energy source**

- | Strengthening **human and social capital**
- | Promoting **good governance** in accordance with the Group's ethical and basic principles and current regulations
- | Protecting **nature** and fostering an **efficient use of resources**
- | Promoting a **sustainable value chain**

**Boosting electricity**

- Networks:** Green light for the **Eastern Green Link 4** subsea interconnection between Scotland and England.
- Renewables:** Italy's largest **solar farm** is now operational.
- Batteries:** Spain's largest **batteries** (60 MWh each) are now operational.

**Strengthening human and social capital**

A solar community initiative led by **SP Energy Networks** is funding social services in Scotland.

**Promoting good governance**

**Project Gencast** included in the **Global AI & SDG Index** as **World's Top100 AI Projects** for sustainability.

**Protecting nature**

**Iberdrola España** has renewed its **ISO 14001** certification and consolidated its leadership in environmental management.

**Sustainable value chain**

The **"12 months, 12 initiatives"** campaign is now underway to strengthen alignment across our global supplier network on key issues
