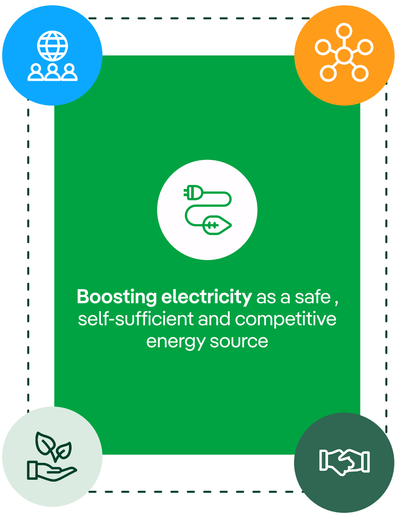
125 Iberdrola
Sustainable Event

We are making good progress on our roadmap



- Strengthening **human and social capital**
- Promoting **good governance** in accordance with the Group's Ethical and Basic Principles and applicable rules and regulations
- Protect **nature** and promoting the **efficient use of resources**
- Promoting a **sustainable value chain**

Initiatives during the period

Boosting electricity

Iberdrola enters **Finland** with the acquisition of an **80% stake in Caruna**, the country's largest electricity distribution company.

East Anglia Three completes all **95 foundations** and progresses towards its **1,400 MW** of offshore wind capacity in the UK.

ScottishPower connects a **30 MW** battery to optimise the network in real time.

Strengthening human and social capital

First electricity company worldwide to be **certified** for its **well-being** management through **ISO 45003** certification.

Promoting good governance

Neoenergia receives the **Pro-Ethics Company Seal** for the sixth time (2025–2026).

Protecting nature

ScottishPower recycles or reuses **99.9%** of the materials removed during the repowering of the **Hagshaw Hill 1** wind farm in the UK.

Sustainable value chain

Avangrid restored power to more than **283,000 customers** affected by extreme weather events in the United States.
