

Iberdrola wins two international awards for its 2026 Online Integrated Report

- *The League of American Communications Professionals (LACP) has awarded Iberdrola the Platinum award, its highest accolade, and placed its Online Integrated Report among the top 10 in the EMEA region*
- *The ARC Awards (Annual Report Competition), organised by MerComm Inc., recognise the quality of its design and interactive digital experience*

Iberdrola has won two major international awards for the content quality, design and digital experience of its [2026 Online Integrated Report](#). The publication was awarded the Platinum prize at the LACP Vision Awards, presented by the League of American Communications Professionals (LACP), and an ARC Award in the Integrated AR & ESG category.

For the second consecutive year, the company achieved the highest distinction at the LACP Vision Awards in the utilities category. In addition, Iberdrola is the only Spanish company included in the global Top 100 of these awards, which annually recognise excellence in the preparation and presentation of corporate reports. Its Online Integrated Report also features among the top 10 in the EMEA region.

The publication achieved a score of 99 out of 100 and top ratings in categories such as the letter to shareholders, corporate narrative and clarity of message.

Under the motto "Electrification is unstoppable", it offers an integrated view of the Group's strategy, business model, economic and financial performance, and sustainability. The 2026 edition presents the company's long-term growth roadmap, with electricity networks as the main investment focus and electrification as the driver of competitiveness, energy security and sustainable economic development.

This recognition comes in addition to the one obtained at the ARC Awards (Annual Report Competition), organised by MerComm Inc., which evaluate aspects such as information presentation, creativity, usability and the ability to clearly convey an organisation's strategy and performance.

With these accolades, Iberdrola has reinforced its position as a benchmark in digital corporate communication through a proposal that combines transparency, innovation and effective integration of sustainability into its activity and stakeholder relations.

About Iberdrola

Having surpassed €140 billion in market capitalisation, Iberdrola is Europe's largest electricity company and one of the two largest worldwide. The Group serves more than 100 million people globally, with a workforce of 45,400 employees and assets of €161 billion. In 2025, Iberdrola recorded a record net profit of €6.3 billion. The company contributes nearly €10.4 billion in tax contributions in the countries where it operates and supports more than 500,000 jobs across its supply chain, thanks to €13.2 billion in purchases from tens of thousands of suppliers.

Since 2001, Iberdrola has invested more than €175 billion in electricity networks, renewable energies and energy storage to contribute to creating an energy model based on electrification. The company has nearly 1.4 million km of electricity networks in the United States (states of New York, Connecticut, Maine and Massachusetts), the United Kingdom (Scotland, England and Wales), Brazil (states of Bahia, Rio Grande do Norte, Pernambuco, São Paulo and Mato Grosso do Sul, as well as Brasília) and Spain, alongside 57,000 MW of capacity worldwide, of which more than 46,000 MW are renewables.
