Ignacio Galán discusses at Davos about business challenges and opportunities in 2020

The chairman of the Iberdrola group, Ignacio Galán, took part at the conference titled [*Shaping the Future of Energy and Materials*](#), within the activities being held at the World Economic Forum Annual Meeting at Davos.

Participants discussed about how the competitive landscape has changed in this year, what the key business challenges and opportunities are in 2020 and what should be strategic priorities in the decade ahead.
