Iberdrola, the main driving force behind the Women's Universe programme

The 'Women, Health, and Sport' Tour is part of the National Sports Council (*Consejo Superior de Deportes*, or 'CSD') 'Women's Universe' programme. Iberdrola has been the main driver of this programme since July 2016. This is the first company in Spain to make a global commitment to promoting the participation of women in every area of sport.

Under the agreement with Spain's National Sports Council (CSD), the company supports various sports federations, including gymnastics, swimming, football, triathlon, badminton, canoeing, and hockey, and more may be added in the future. These sports have been chosen on account of the extraordinary level of success achieved in them, the high rate of participation, the existence of schemes to promote the sport at the grass-roots level, and other social projects.

Iberdrola is also one of the leading sponsors of the Spanish Paralympic Team and the Paralympic Sailing Team. It has been involved in the Paralympic Sport Support Plan (ADOP) since it was launched in 2005, and backed the Spanish Paralympic Team at the Beijing 2008, London 2012, and Rio de Janeiro 2016 Games. In 2013, the group's contribution to Paralympic sport was recognised by the National Sports Council (CSD) with its Olimpia Award.
