

# IBERDROLA GROUP AND SUSTAINABILITY

## MILESTONES 2018

69% of our total installed capacity is emission-free.

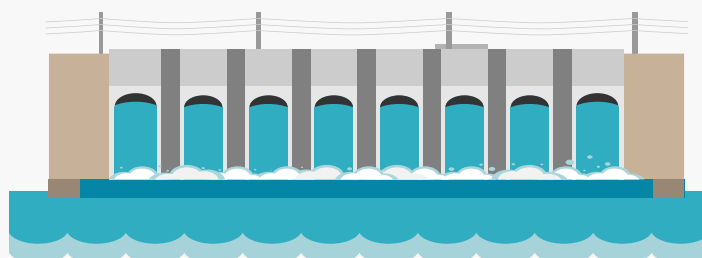

Our emissions intensity is 32% below the European average.

Strong emissions reduction targets:  
**50% by 2030 compared to 2007**  
**and carbon neutral by 2050.**

Aligned with the UN Sustainable Development Goals: with special emphasis on Goals 7 (affordable and clean energy) and 13 (climate action).

Commissioning of the Baixo Iguazu hydroelectric power plant with an installed capacity of over 350 MW which **supplies renewable energy to one million people**. This installation will contribute to maintaining the minimum flow necessary for the Iguazu Falls, to which we must add other health, education, infrastructure and public safety initiatives in the region.
