

SHOULD YOU TRY JOB HOPPING?

IF YOU STAY TOO LONG

You are not considered ambitious enough

Nor willing enough to take on new roles

IF YOU LEAVE TOO EARLY

You will not have the opportunity to be valued internally

It will be more difficult to prove your loyalty to potential employers

BEFORE YOU CHANGE YOUR JOB, ASK YOURSELF

What do you want from your career?

Have you made the most of your current role?

Why look for new opportunities?

Where do you think you can reach your full potential in the long term?

What is most common in your sector?

EVERY MOVE IN YOUR CAREER IS IMPORTANT

Do your homework and you can jump in without damaging your career. Otherwise, grow into a company and get all the rewards you can.
