</thead>
<tbody>
<tr>
<td>The Company sent to the CNMV three updates to its treasury share position in 2016 as a result of a change in the number of voting rights arising from corporate transactions:</td>
</tr>
<tr>
<td>- notices of direct acquisitions of a total of 41,537,228 shares (0.649%) were provided on 4 February, coinciding with the increase in capital resulting from the “Iberdrola Flexible Dividend” programme.</td>
</tr>
<tr>
<td>- notices of direct acquisitions of a total of 58,297,884 shares (0.934%) were provided on 9 May, coinciding with the reduction in capital; and</td>
</tr>
<tr>
<td>- notices of direct acquisitions of a total of 14,141,497 shares (0.222%) were provided on 29 July, coinciding with the increase in capital resulting from the “Iberdrola Flexible Dividend” programme.</td>
</tr>
</tbody>
</table>
During financial year 2016 and the elapsed part of 2017, the Company provided three additional notices arising from consecutive direct acquisitions of own shares due to said acquisitions exceeding 1% of voting rights since the preceding notice:
- notices of direct acquisitions of a total of 56,603,780 shares (0.893%) were provided on 4 January 2016.
- notices of direct acquisitions of a total of 63,677,004 shares (1.001%) were provided on 21 November 2016; and
- notices of direct acquisitions of a total of 69,572,560 shares (1.094%) were provided on 4 January 2017.

A.9. Describe the terms and conditions and the duration of the powers currently in force given by the shareholders to the board of directors in order to issue, repurchase, or transfer own shares of the company:

The shareholders acting at the General Shareholders' Meeting held on 28 March 2014 resolved to expressly authorise the Board of Directors, with the power of substitution, pursuant to the Companies Act (Ley de Sociedades de Capital), to carry out the derivative acquisition of the shares of Iberdrola on the following terms:

a) Purchases may be made by Iberdrola directly, or indirectly through its subsidiaries. Subsidiaries carrying out regulated activities are excluded pursuant to the provisions of the Electricity Industry Act (Ley del Sector Eléctrico) and the Hydrocarbons Act (Ley de Hidrocarburos).

b) Purchases shall be made by means of a purchase and sale agreement, a swap arrangement, or any other transaction permitted by law.

c) Purchases may be made up to the maximum sum permitted by law (i.e. 10% of the share capital).

d) Purchases may not be made at a higher price than that quoted on the Stock Exchange or at a price lower than the share's nominal value.

e) The authorisation was granted for a period not to exceed five years as from the approval of the resolution.

f) The acquiring company shall establish a restricted reserve in shareholders' equity equal to the amount of the shares of the controlling company recorded under assets. Such reserve shall be maintained for so long as the shares are not transferred or retired, in compliance with the provisions of the Companies Act.

The shares, if any, purchased as a result of the aforementioned authorisation could be used for either transfer or retirement or could be applied to the remuneration systems provided for in the Companies Act; added to the foregoing alternatives was the possible development of programmes fostering the acquisition of interests in the Company such as, for example, dividend reinvestment plans, loyalty bonds, or similar instruments.

A.9. bis Estimated free-float:

<table>
<thead>
<tr>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Estimated free-float: 85.92</td>
</tr>
</tbody>
</table>

A.10. State whether there are any restrictions on the transfer of securities and/or any restrictions on voting rights. In particular, disclose the existence of any restrictions that might hinder a takeover of the company through the acquisition of its shares in the market.

Yes [x] No [ ]
### Description of restrictions

Those having an interest equal to or greater than 3% of the capital or voting rights of two or more companies that have the status of Principal Operator in certain markets or sectors (including the generation and supply of electricity) may not exercise rights in excess of such percentage in more than one entity.

Article 29.2 of the By-Laws provides that no shareholder may cast a number of votes greater than those corresponding to shares representing 10% of the share capital.

According to article 28, a shareholder may not exercise their right to vote at the General Shareholders’ Meeting if it deals with a resolution intended to: (a) relieve the shareholder of an obligation or grant the shareholder a right; (b) provide the shareholder with any kind of financial assistance, including the provision of guarantees in favour thereof; (c) release the shareholder, if a director, from obligations arising from the duty of loyalty as provided by law.

Article 50 of the By-Laws provides that the by-law restrictions against the exercise of voting rights by shareholders affected by conflicts established in article 28 above and the limitation on the maximum number of votes that may be cast by a single shareholder contained in sections 2 and 4 of article 29 above shall be deprived of effect upon the occurrence of certain circumstances in the case of a takeover bid.

Furthermore, section 527 of the restated text of the Companies Act provides that at listed companies (sociedades anónimas cotizadas), the by-law provisions that directly or indirectly set, as a general rule, the maximum number of votes that may be cast by the same shareholder, by the companies belonging to the same group, or by those acting in concert with the foregoing shall be of no effect when, following a takeover bid, the bidder has reached a percentage that is equal to or greater than 70% of the voting share capital, unless such bidder is not subject to equivalent breakthrough measures or has not adopted them.

Pursuant to U.S. law, due to the business carried out by Avangrid, Inc. (a company belonging to the Iberdrola Group) in that country, the acquisition of an interest giving rise to the holding of 10% or more of the share capital of Iberdrola will be subject to the prior approval of certain U.S. regulatory authorities.

### A.11. State whether the shareholders acting at a general shareholders’ meeting have approved the adoption of breakthrough measures in the event of a takeover bid pursuant to the provisions of Law 6/2007.

Yes [ ] No [x]

If applicable, explain the approved measures and the terms on which the restrictions will become ineffective.

### A.12. State whether the company has issued securities that are not traded on a regulated market within the European Community.

Yes [ ] No [x]

If applicable, specify the different classes of shares, if any, and the rights and obligations attaching to each class of shares.
B. GENERAL SHAREHOLDERS’ MEETING

B.1. State and, if applicable, describe whether there are differences with the minimum requirements set out in the Companies Act in connection with the quorum needed to hold a valid general shareholders’ meeting.

Yes [x] No [ ]

<table>
<thead>
<tr>
<th>Description of differences</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quorum % different from that established in section 193 of the Companies Act generally</td>
</tr>
<tr>
<td>Required quorum upon 1st call</td>
</tr>
<tr>
<td>Required quorum upon 2nd call</td>
</tr>
</tbody>
</table>

B.2. State and, if applicable, describe any differences from the rules set out in the Companies Act for the adoption of corporate resolutions:

Yes [x] No [ ]

Describe how they differ from the rules provided by the Companies Act.

<table>
<thead>
<tr>
<th>Description of differences</th>
</tr>
</thead>
<tbody>
<tr>
<td>Qualified majority other than that established in section 201.2 of the Companies Act for the cases set forth in section 194.1 of the Companies Act</td>
</tr>
<tr>
<td>% established by the entity for the adoption of resolutions</td>
</tr>
</tbody>
</table>

Describe the differences

Article 52 of the By-Laws provides that all resolutions intended to eliminate or amend the provisions contained in title IV (breakthrough of restrictions in the event of takeover bids), in article 28 (conflicts of interest), and in sections 2 to 4 of article 29 (limitation upon the maximum number of votes that a shareholder may cast), shall require the affirmative vote of three-fourths (3/4) of the share capital present in person or by proxy at a General Shareholders’ Meeting.
B.3. State the rules applicable to the amendment of the by-laws of the company. In particular, disclose the majorities provided for amending the by-laws, and any rules provided for the protection of the rights of the shareholders in the amendment of the by-laws.

In addition to the provisions of section 285 et seq. of the Companies Act, the By-Laws of Iberdrola contain articles 21.2 (qualified quorum) and 52 (qualified majority) mentioned in sections B.1 and B.2 above.

B.4. State the data on attendance at the general shareholders' meetings held during the financial year referred to in this report and those of the prior financial year:

<table>
<thead>
<tr>
<th>Date of general shareholders meeting</th>
<th>% of shareholders present in person</th>
<th>% of shareholders represented by proxy</th>
<th>% absentee voting</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>27/03/2015</td>
<td>21.45</td>

<td>0.11</td>
<td>78.65</td>
</tr>
<tr>
<td>08/04/2016</td>
<td>8.00</td>
<td>69.68</td>
<td>0.19</td>
<td>77.91</td>
</tr>
</tbody>
</table>

B.5. State whether there are any by-law restrictions requiring a minimum number of shares to attend the general shareholders’ meeting.

Yes ☐ No ☒

Number of shares required to attend the general shareholders’ meeting

B.6. Section deleted.

B.7. State the address and method for accessing the company’s website to access information regarding corporate governance and other information regarding general shareholders’ meetings that must be made available to the shareholders through the Company’s website.

www.iberdrola.com > Corporate Governance.

Information regarding past general shareholders’ meetings of the Company can be accessed at the same address: www.iberdrola.com > Corporate Governance > General Shareholders’ Meeting.
C. STRUCTURE OF THE COMPANY’S MANAGEMENT

C.1. Board of directors

C.1.1. Maximum and minimum number of directors set forth in the by-laws:

C.1.5. Explain any measures adopted to include on the board of directors a number of women that allows for a balanced presence of men and women.

Explanation of measures

The Company’s Corporate Governance System, and particularly the Director Candidate Selection Policy, entrusts the Appointments Committee with the duty to ensure that when new vacancies are filled or new directors are appointed, the selection procedures are free from any implied bias entailing any kind of discrimination and, in particular, that such procedures do not hinder the selection of female directors. The goals thereof include ensuring that female directors continue to account for at least 30% of the Board of Directors by 2020.

Iberdrola has consistently increased the number of female directors on its Board of Directors since 2006. Five of the fourteen members of the Board of Directors are currently women.

On 7 June 2006, the Board of Directors appointed Ms Inés Macho Stadler as independent director on an
interim basis to fill a vacancy; such appointment was ratified by the shareholders at the General Shareholders’ Meeting held on 29 March 2007, where the shareholders also approved her re-election for a five-year period. On 22 September 2009, Ms Inés Macho Stadler was appointed as lead independent director (consejera coordinadora), a position governed by the provisions of article 45 of the By-Laws and article 21 of the Regulations of the Board of Directors, which position she has continuously held through the date hereof.

At its meeting of 31 July 2008, the Board of Directors resolved to appoint Ms Samantha Barber as an independent director on an interim basis to fill a vacancy; such appointment was ratified by the shareholders at the General Shareholders’ Meeting held on 20 March 2009. Ms Barber has also chaired the Corporate Social Responsibility Committee since 24 April 2012, replacing Mr. Braulio Medel Cámara.

The shareholders at the General Shareholders’ Meeting held on 26 March 2010 approved the proposed appointment of Ms María Helena Antolín Raybaud, with the classification of external independent director.

On 23 April 2013, Iberdrola’s Board of Directors approved the interim appointment of Ms Georgina Kessel Martínez as an external independent director, which appointment was subsequently ratified by the shareholders at the General Shareholders’ Meeting held on 28 March 2014. Furthermore, Ms Kessel Martínez was appointed chair of the Audit and Risk Supervision Committee on 17 February 2015, replacing Mr. Julio de Miguel Aynat.

On 23 April 2013, Iberdrola’s Board of Directors approved the interim appointment of Ms Georgina Kessel Martínez as an external independent director, which appointment was subsequently ratified by the shareholders at the General Shareholders’ Meeting held on 28 March 2014. Furthermore, Ms Kessel Martínez was appointed chair of the Audit and Risk Supervision Committee on 17 February 2015, replacing Mr. Julio de Miguel Aynat.

On 24 June 2014, the Board of Directors approved the interim appointment of Ms Denise Mary Holt as an external independent director. This appointment was ratified by the shareholders at the General Shareholders’ Meeting held on 27 March 2015.

Finally, the Appointments and Remuneration Committee was split into two separate committees on 27 March 2015. The appointment of Ms María Helena Antolín Raybaud and of Ms Inés Macho Stadler as chairs of the Appointments Committee and the Remuneration Committee, respectively, was approved for these purposes.

As a result of the foregoing, all consultative committees of the Board of Directors are chaired by women.

C.1.6. Explain any measures approved by the appointments committee in order for selection procedures to be free of any implied bias that hinders the selection of female directors, and in order for the company to deliberately search for women who meet the professional profile that is sought and include them among potential candidates:

<table>
<thead>
<tr>
<th>Explanation of measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Director Candidate Selection Policy ensures that the proposed appointments of directors are based on a prior analysis of the needs of the Board of Directors. In particular, the candidates must be respectable and qualified persons, widely recognised for their expertise, competence, experience, qualifications, training, availability, and commitment to their duties. They must be irreproachable professionals, whose professional conduct and background is aligned with the principles set forth in the Directors’ Code of Ethics and the corporate values contained in the Mission, Vision, and Values of the Iberdrola group.</td>
</tr>
<tr>
<td>In addition, the selection of candidates shall endeavour to ensure that a diverse and balanced composition of the Board of Directors as a whole is achieved, such that decision-making is enriched and multiple viewpoints are contributed to the discussion of the matters within its power. To this end, the selection process shall promote a search for candidates with knowledge and experience in the main countries and sectors in which the Group does or will do business. The directors must also have sufficient knowledge of the Spanish and English languages to be able to perform their duties.</td>
</tr>
<tr>
<td>In turn, the Board has entrusted to the Appointments Committee the responsibility of ensuring that when new vacancies are filled or new directors are appointed, the selection procedures are free from any implied bias entailing any kind of discrimination and, in particular, from any bias that might hinder the selection of female directors. This is expressly provided by articles 27.6.c) of the Regulations of the Board of Directors and 3.e) of the Regulations of the Appointments Committee.</td>
</tr>
</tbody>
</table>

If there are few or no female directors despite any measures adopted, describe the reasons for such result:

<table>
<thead>
<tr>
<th>Explanation of reasons</th>
</tr>
</thead>
<tbody>
<tr>
<td>If there are few or no female directors despite any measures adopted, describe the reasons for such result:</td>
</tr>
</tbody>
</table>
C.1.6.bis Explain the conclusions of the appointments committee regarding verification of compliance with the director selection policy. Particularly explain how said policy is promoting the goal that the number of female directors represents at least 30% of all members of the board of directors by 2020.

The Director Candidate Selection Policy conforms to the most stringent domestic and international corporate governance practices regarding appointments, seeking diversity of knowledge, experience, origin, nationality, and gender within the Board of Directors. The policy specifies the Company’s commitment to eliminate any implicit bias that hinders the selection of female directors, who currently represent more than 35% of the members of the Board of Directors, having already exceeded the commitment set out in the policy stating that the number of female directors would represent at least thirty per cent of all members of the Board of Directors by 2020. Finally, the policy promotes the inclusion within the Board of Directors of candidates with experience on boards of directors of subsidiaries of the Group, thus contributing their knowledge of the Company’s business through such subsidiaries.

C.1.7. Explain the form of representation on the board of shareholders with significant holdings.

C.1.8. Explain, if applicable, the reasons why proprietary directors have been appointed at the proposal of shareholders whose shareholding interest is less than 3% of share capital.

</table>

| Total senior management remuneration (in thousands of euros) | 11,680 |

C.1.17. State the identity of the members of the board, if any, who are also members of the board of directors of significant shareholders and/or in entities of their group:

<table>
<thead>
<tr>
<th>Individual or company name of director</th>
<th>Company name of the significant shareholder</th>
<th>Position</th>
</tr>
</thead>
</table>

Describe any significant relationships, other than the ones contemplated in the prior item, of the members of the board of directors linking them to significant shareholders and/or companies within their group:

<table>
<thead>
<tr>
<th>Individual or company name of related director</th>
<th>Individual or company name of related significant shareholder</th>
<th>Description of relationship</th>
</tr>
</thead>
</table>
C.1.18. State whether the regulations of the board have been amended during the financial year:

Yes [x]  No  

**Description of amendments**

Set out below are the main amendments to the Regulations of the Board of Directors during financial year 2016:

- Include and update required references to the new autonomy rule of the Mission, Vision, and Values of the Iberdrola group, which, as an autonomous rule of the Corporate Governance System, contains the corporate philosophy of the Iberdrola Group.
- Clarify the role of the Board of Directors in approving the strategic goals of the Iberdrola group, touching on the role to be followed in view of its corporate and governance structure.
- Strengthen the independence and legitimacy of the role lead independent director (consejero coordinador), contemplating the need for re-election of the lead independent director by the Board of Directors if the person holding such position is re-elected as a director by the shareholders acting at a General Shareholders’ Meeting.
- The chair of the Board of Directors is entrusted with the duty of providing new directors with the information needed to perform their duties and to promote access by all directors to training materials and sessions that allow them to continuously update their knowledge.
- It is provided that the secretary of the Board of Directors will assist the Compliance Unit in handling investigations that affect a member of the Board of Directors, and specifically in selecting the investigating officer, who shall be a person from outside the Group to guarantee independence.
- The powers of the Audit and Risk Supervision Committee are updated to conform them to the new regulations on auditing.
- The rules for related-party transactions are clarified and the regulation thereof is relocated: related-party transactions and conflicts of interest with directors and significant shareholders are included once again in the Regulations of the Board of Directors. Those regarding senior officers are governed by the Procedure for Conflicts of Interest and Related-Party Transactions with Senior Officers.
- As to the approval of related-party transactions, the clarification is made that when dealing with transaction in which Iberdrola, S.A. does not participate, the scope of authorisation of the Board of Directors, or the Executive Committee if applicable, shall be circumscribed to verifying that the transaction is performed on market terms and conditions and in accordance with the principle of equal treatment, but such authorisation does not change the distribution of powers provided for by the corporate and governance structure of the Iberdrola Group.
- The Sole Transitional Provision regarding the renewal of the Board of Directors is deleted.

C.1.19. State the procedures for the selection, appointment, re-election, evaluation, and removal of directors. Describe the competent bodies, the procedures to be followed, and the criteria applied in each of such procedures.

1. **APPOINTMENT AND RE-ELECTION OF DIRECTORS**

The appointment, re-election, and removal of directors is within the purview of the shareholders at the General Shareholders’ Meeting.

Vacancies that occur may be filled by the Board of Directors on an interim basis until the next General
Shareholders' Meeting.

The Appointments Committee must advise the Board of Directors regarding the most appropriate configuration thereof and of its committees as regards size and equilibrium among the various classes of directors existing at any time. This is in any event based on the conditions that candidates for director must meet pursuant to the Director Candidate Selection Policy.

The following may not be appointed as directors or as individuals representing a corporate director:

a) Domestic or foreign companies competing with the Company in the energy industry or other industries, or the directors or senior officers thereof, or such persons, if any, as are proposed by them in their capacity as shareholders.

b) Individuals or legal entities serving as directors in more than five companies, of which no more than three may have shares trading on domestic or foreign stock exchanges.

c) For purposes of the provisions of the preceding paragraph, positions within holding companies are excluded from the calculation. Furthermore, companies belonging to the same group shall be deemed to be a single company.

d) Persons who, during the two years prior to their appointment, have occupied high-level positions in Spanish government administrations that are incompatible with the simultaneous performance of the duties of a director of a listed company under Spanish national or autonomous community law, or positions of responsibility with entities regulating the energy industry, the securities markets, or other industries in which the Group operates.

Individuals or legal entities that are under any other circumstance of disqualification or prohibition governed by provisions of a general nature, including those that have interests in any way opposed to those of the Company or the Group.

The Board of Directors and the Appointments Committee, within the scope of their powers, shall endeavour to ensure that the candidates proposed are respectable and qualified persons, widely recognised for their expertise, competence, experience, qualifications, training, availability, and commitment to their duties.

It falls upon the Appointments Committee to propose the independent directors, as well as to report upon the proposals relating to the other classes of directors.

If the Board of Directors deviates from the proposals and reports of the Appointments Committee, it shall give reasons for so acting and shall record such reasons in the minutes.

2. EVALUATION OF DIRECTORS

The Board of Directors shall annually evaluate: (i) its operation and the quality of its work; (ii) the performance of their duties by the chairman of the Board of Directors and by the chief executive officer, based on the report submitted thereto by the Appointments Committee; and (iii) the operation of its committees, in view of the report submitted thereto by such committees. For such purpose, the chairman of the Board of Directors shall organise and coordinate the aforementioned evaluation process with the chair of each committee. The following section reports on the evaluation process during financial year 2016.

3. REMOVAL OF DIRECTORS

Directors “shall serve in their position for a term of four (4) years, so long as the shareholders acting at the General Shareholders’ Meeting do not resolve to remove them and they do not resign from their position”.

The Appointments Committee shall inform the Board of Directors regarding proposed removals due to breach of the duties inherent to the position of director or due to a director becoming affected by supervening circumstances of mandatory resignation or withdrawal. In addition, the Committee may propose the removal of directors in the event of disqualification, structural conflict of interest, or any other reason for resignation or withdrawal, pursuant to law or the Company’s Corporate Governance System.

The Board of Directors may propose the removal of an independent director before the passage of the period provided for in the By-Laws only upon sufficient grounds, evaluated by the Board of Directors after a report from the Appointments Committee, or as a consequence of takeover bids, mergers, or other similar corporate transactions resulting in a significant change in the structure of the Company’s share capital, as recommended by the Good Governance Code of Listed Companies.
C.1.20 Explain the extent to which the self-evaluation of the board has given rise to significant changes in its internal organisation and regarding the procedures applicable to its activities:

<tr>
<td>Iberdrola has an on-going commitment to the development of its corporate governance, adopting the best practices in the international markets that apply thereto. In order to continue to permanently improve, Iberdrola evaluates the operation of its governance bodies on an annual basis, and based on the conclusions thereof defines an Action Plan with the principal areas of work for the coming year. More than 90% of the work areas defined in the Action Plan were met during 2016. Specifically, significant advancements were made in the following areas:</td>
</tr>
<tr>
<td>1. Renewal of the composition of governance bodies:</td>
</tr>
<tr>
<td>- Continuous renewal of the Board of Directors with the inclusion of a director having extensive experience in the financial and audit sector and broad knowledge of the Iberdrola group.</td>
</tr>
<tr>
<td>- Increase in the percentage of independent directors on the Board of Directors from 64% to 71%.</td>
</tr>
<tr>
<td>- Adjustment in the composition of the Executive Committee, aligning the representation of the various categories of directors on the Executive Committee with that of the Board of Directors.</td>
</tr>
<tr>
<td>2. Supervision of strategy and other critical issues:</td>
</tr>
<tr>
<td>- Approval of the financial strategy and forecasts for 2016-2020.</td>
</tr>
<tr>
<td>- Formalisation of the Mission, Vision, and Values of the Iberdrola group as a integral norm of the Corporate Governance System.</td>
</tr>
<tr>
<td>- Revision of the Company’s cyber-security strategy.</td>
</tr>
<tr>
<td>3. Transparency/communication with and engagement of shareholders:</td>
</tr>
<tr>
<td>- First publication of the Annual Report on Engagement and Contacts with Shareholders.</td>

<tr>
<td>- Comparative study of the remuneration of the directors with the support of an outside adviser.</td>
</tr>
</tbody>
</table>

C.1.20 bis Describe the process of self-evaluation and the areas evaluated by the board of directors, as it may be assisted by an external consultant, regarding diversity in its composition and powers, the operation and composition of its committees, the performance of the chairman of the board and chief executive officer, and the performance and contribution of each director.

The Board of Directors evaluates its performance on an annual basis. On 25 October 2016 the Board of Directors approved the commencement of the process of evaluation of the Board of Directors itself, the Executive Committee, its consultative committees, the directors individually, and the chairman & CEO. In the last case, the evaluation was led by the lead independent director. The process concluded at the meeting of the Board of Directors held on 21 February 2017, with the approval of the results of the evaluation and the Action Plan for financial year 2017.

In order to align the Company with best international practices, it was decided to hire PricewaterhouseCoopers Asesores de Negocios, S.L. ("PwC") as an external adviser in the evaluation process.

The evaluation process covered approximately 500 objectively quantifiable and measurable indicators, which are updated each year with the latest trends and regulatory changes. The fields analysed in each of the reports were: (i) compliance with the Companies Act and the internal rules of the Company; (ii) a comparative analysis with domestic and international comparables; (iii) monitoring of the most advanced trends in corporate governance; and (iv) the application of the work areas defined in the action plans for prior financial years.

The conclusions of the evaluation process reflect absolute compliance with the indicators relating to mandatory legal rules and regulations and an alignment of more than 90% with the latest international
trends and with the application of the areas for improvement identified during prior years.

The Action Plan 2017 deriving from the evaluation process focuses on continuing to advance in three areas, principally:

1. Supervision of the implementation of the strategy, governance model, and business model.
2. Continued evolution of the abilities of the Board of Directors, advancing with programmes for initial orientation and training of the directors.
3. Compare trends regarding remuneration.

C.1.20 List any business relationships of the consultant or any company of its group with the company or any company of its group.

The business relationships of the consultant and the companies of its group with the Company and the group in 2016 came to the aggregate amount of 5.6 million euros, and were mainly focused on the following:

- Support in the regulatory and tax areas.
- Advice on accounting issues.
- Support to the Office of the Secretary of the Board of Directors.
- Advice on cyber-security and implementation of information technology systems.

C.1.21. State the circumstances under which the resignation of directors is mandatory.

Directors must submit their resignation from the position and formally resign from their position upon the occurrence of any of the instances of disqualification from or prohibition against performing the duties of director provided by law or by Iberdrola’s Corporate Governance System.

In this connection, article 16.3 of the Regulations of the Board of Directors provides that the directors must submit their resignation to the Board of Directors in the following cases:

a) When, due to supervening circumstances, they are involved in any circumstance of disqualification or prohibition provided by law or the Corporate Governance System.

b) When, as a result of any acts or conduct attributable to the director, serious damage is caused to the value or reputation of the Company or there is a risk of criminal liability for the Company or any of the companies of the Group.

c) When they cease to deserve the respectability or to have the capability, expertise, competence, availability, or commitment to their duties required to be a director of the Company.

In particular, when the activities carried out by the director, or the companies directly or indirectly controlled by the director, or the individuals or legal entities that are shareholders of or related to any of them, or the individual representing a corporate director, may compromise the competence of the director.

d) When they are seriously reprimanded by the Board of Directors because they have breached any of their duties as directors, by resolution adopted by a two-thirds majority of the directors.

e) When their continuance in office on the Board of Directors may for any reason, either directly, indirectly, or through persons related thereto, jeopardise the faithful and diligent performance of their duties in furtherance of the corporate interest.

f) When the reasons why the director was appointed cease to exist and, in particular, in the case of proprietary directors, when the shareholder or shareholders who proposed, requested, or decided the appointment thereof totally or partially sell or transfer their equity interest, with the result that such equity interest ceases to be significant or sufficient to justify the appointment.

g) When an independent director unexpectedly falls under supervening circumstances that prevent the director from being considered as such pursuant to the provisions of law.

The resignation provisions set forth under f) and g) above shall not apply when, after a report from the Appointments Committee, the Board of Directors believes that there are reasons that justify the director’s continuance in office, without prejudice to the effect that the new supervening circumstances may have on
C.1.22. Section deleted.

C.1.23. Are qualified majorities, different from the statutory majorities, required to adopt any type of decision?

C.1.26. State whether the by-laws or the regulations of the board set forth any age limit for directors:

Yes [ ] No [x]

| Age limit for the chair | - |
| Age limit for the CEO   | - |
| Age limit for directors | - |
C.1.27. State whether the by-laws or the regulations of the Board establish any limit on the term of office for independent directors that is different than the term provided by regulatory provisions:

[ ] Yes  [X] No

Maximum number of terms

C.1.28. State whether there are formal rules for proxy-voting at meetings of the board of directors, the manner of doing so, and especially the maximum number of proxies that a director may hold, as well as whether any restriction has been established regarding the categories of directors to whom proxies may be granted beyond the restrictions imposed by law. If so, briefly describe such rules.

Pursuant to article 36.2 of the By-Laws, all of the directors may cast their vote and give their proxy in favour of another director, provided, however, that non-executive directors may only do so in favour of another non-executive director. Articles 32.2 and 36.2.b) of the Regulations of the Board of Directors require that directors attend the meetings of the Board of Directors. When directors are unable to attend in person for well-founded reasons, they shall endeavour to give a proxy to another director, to whom they shall give any appropriate instructions, but may not grant a proxy in connection with matters in respect of which they are involved in a conflict of interest.

The proxy granted shall be a special proxy for the Board meeting in question and may be communicated by any means allowing for the receipt thereof.

There is no maximum number of proxies provided per director.

C.1.29. State the number of meetings that the board of directors has held during the financial year. In addition, specify the number of times the board has met, if any, at which the chair was not in attendance. Proxies granted with specific instructions shall be counted as attendance.

| Number of meetings of the board | 8 |
| Number of meetings of the board at which the chair was not in attendance | 0 |

If the chair is an executive director, state the number of meetings held without the presence in person or by proxy of any executive director and chaired by the lead independent director.

| Number of meetings | 0 |

State the number of meetings held by the different committees of the board of directors during the financial year:

| Number of meetings of the Executive Committee | 13 |
| Number of meetings of the Audit and Risk Supervision Committee | 13 |
| Number of meetings of the Appointments Committee | 9 |
| Number of meetings of the Remuneration Committee | 7 |
| Number of meetings of the Corporate Social Responsibility Committee | 12 |
C.1.30. State the number of meetings that the board of directors has held during the financial year with the attendance of all of its members. Proxies granted with specific instructions shall be counted as attendance:

<table>
<thead>
<tr>
<th>Number of meetings with the attendance of the directors</th>
<th>8</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

C.1.32. Explain the mechanisms, if any, adopted by the board of directors to avoid any qualifications in the audit report on the annual individual and consolidated accounts prepared by the board of directors and submitted to the shareholders at the general shareholders’ meeting.

Articles 3 and 6 of the Regulations of the Audit and Risk Supervision Committee provide that it shall have the following duties, among others:

- Supervise the process of preparing and presenting regulated financial information relating to the Company, both individual and consolidated with its subsidiaries, reviewing compliance with legal requirements, the proper delimitation of the scope of consolidation, and the correct application of accounting standards, and submit recommendations or proposals to the Board of Directors to safeguard the integrity thereof.

- Establish appropriate relationships with the auditor to receive information regarding matters that might entail a threat to the independence thereof, for examination by the Committee, and any other information related to the development of the audit procedure, as well as such other communications as are provided for in the laws on auditing of accounts and in other legal provisions on auditing. The Committee must receive written confirmation from the auditor on an annual basis of their independence in relation to the Company or entities directly or indirectly related thereto, as well as a detailed breakdown of information on additional services of any kind provided to and the corresponding fees received from such entities by such auditor or persons or entities related thereto, pursuant to the legal provisions governing the auditing of accounts.

- On an annual basis, prior to the audit report, issue a report containing an opinion on whether the independence of the auditor is compromised, which shall be made available to the shareholders upon the terms set forth in the Regulations for the General Shareholders’ Meeting. This report shall contain a reasoned assessment of the provision of each and every one of the additional services other than the legal audit referred to in the preceding point, considered individually and as a whole, and in relation to the rules on independence or the legal provisions regarding the auditing of accounts.

- Report in advance to the Board of Directors regarding the financial information that the Company must disclose on a regular basis because of its status as a listed company; the Committee shall make sure that the interim accounts are prepared in accordance with the same accounting standards as the annual accounts and, for such purpose, it shall consider the appropriateness of a limited
- Review the contents of the audit reports on the accounts and of the reports on the limited review of interim accounts, if any, as well as other mandatory reports to be prepared by the auditor, prior to the issuance thereof, in order to avoid qualified reports.

- Act as a channel of communication between the Board of Directors and the auditors, causing them to hold an annual meeting with the Board of Directors to report thereto on the work performed and the accounting status and risks of the Company.

Article 51 of the Regulations of the Board of Directors provides, among other things, that:

- The Board of Directors shall meet with the auditors at least once per year in order to receive information regarding the work performed and regarding the accounting status and risks of the Company.

- The Board of Directors shall use its best efforts to definitively prepare the accounts such that there is no room for qualifications by the auditors. However, when the Board of Directors believes that its opinion must prevail, it shall provide a public explanation of the content and scope of the discrepancy.

Pursuant to the above-cited articles, the Audit and Risk Supervision Committee reports on the financial information of the Company throughout the financial year and prior to the approval thereof by the Board of Directors and its submission to the National Securities Market Commission (Comisión Nacional del Mercado de Valores). The reports of the Committee, which the chair thereof presents to the full Board of Directors, are mainly intended to disclose such aspects, if any, as may give rise to qualifications in the audit report of Iberdrola and its consolidated group, making the appropriate recommendations to avoid any such qualifications.

Accordingly, the Committee submitted to the Board of Directors the following reports regarding the annual and half-yearly financial reports and the interim management statements of the Company for financial year 2016:

- Report dated 20 February 2017 regarding the annual accounts of Iberdrola and its consolidated group for financial year 2016.

As disclosed in the information about Iberdrola posted on the website of the National Securities Market Commission (www.cnmv.es), the audit reports on the individual and consolidated annual accounts prepared by the Board of Directors have historically been issued without qualifications.

C.1.33. Is the secretary of the board a director?

</tr>
</tbody>
</table>

C.1.34. Section deleted.

C.1.35. State the mechanisms, if any, used by the company to preserve the independence of auditors, financial analysts, investment banks, and rating agencies.

1. MECHANISMS TO PRESERVE THE INDEPENDENCE OF THE AUDITOR
The Auditor Contracting and Relations Policy, contained within the Company’s Corporate Governance System, provides that:

- The Audit and Risk Supervision Committee shall receive information from the auditor regarding matters that might entail risks to the independence thereof.
- The Committee shall receive from the auditor, on an annual basis, written confirmation of its independence with respect to the Company or entities directly or indirectly related thereto, and information on additional services (other than auditing) provided thereto.
- The auditor shall provide to the Committee annual information regarding the profiles and the track record of the persons making up the audit teams of the Company and of the Iberdrola Group, stating the changes in the composition of such teams compared to the preceding financial year.
- The Committee shall issue, on an annual basis and prior to the issuance of the audit report, a report setting forth an opinion on the independence of the auditor. This report shall in any case pass upon the impact on the independence of the auditor of the provision of services additional to those referred to above and shall attach a reasoned assessment thereof.
- The Committee shall monitor the quality assurance and independence safeguarding internal procedures implemented by the auditor.
- The Committee shall not submit a proposal to the Board of Directors, which in turn shall not submit a proposal to the shareholders at a General Shareholders’ Meeting, for appointment of firms as auditor when it has evidence that they are affected by a lack of independence, a prohibition, or pursuant to the law on auditing. In particular, if the fees accrued from the provision of audit services and services other than audit that the Company and any other entity of the Iberdrola Group expect to pay the auditor or audit firm or a member of its network during each of the last three consecutive financial years represent more than fifteen per cent of the total annual income of the auditor or audit firm and of said network.

As regards 2016:

- Iberdrola’s auditor appeared on twelve occasions before the Audit and Risk Supervision Committee and on one occasion before the Board of Directors to report on various matters relating to the audit process. During these appearances, the auditor did not report issues that might put its independence at risk.
- On 18 February 2016 the auditor sent written confirmation of its independence with regard to the audit of financial information for financial year 2015.
- On 12 July 2016 the auditor sent written confirmation of its independence with regard to the limited review of financial information through 30 June 2016.
- On 15 February 2017 the auditor sent written confirmation of its independence with regard to the audit of the financial information for financial year 2016.
- The auditor represented in the aforementioned letters that it had implemented the internal procedures necessary to ensure its independence.
- The hiring of the auditor for services other than auditing is authorised in advance by the Committee. The hiring is supported by the respective letters of the partner responsible for the audit confirming the non-existence of restrictions on independence to perform this work.
- In its written confirmation of 15 February 2017, the auditor reported that there were nohirings of professionals from the auditor at the Company or its group, except in the case of the Company, where three team leaders were hired, and Avangrid, Inc., where one team leader was hired. The Audit and Risk Supervision Committee believes that these hirings do not affect the independence of the auditor, as they involve professionals with short-term professional experience and who held positions of medium/low responsibility at the audit firm.
- On 20 February 2017 the Committee issued its report to the Board of Directors regarding the independence of the Company’s auditor. The Committee concluded that the auditor performed its audit work with independence from the Company or entities related thereto.

2. MECHANISMS TO PRESERVE THE INDEPENDENCE OF FINANCIAL ANALYSTS, INVESTMENT BANKS, AND RATING AGENCIES

The principles which form the basis of the relations of the Company with financial analysts, investment banks, and rating agencies are contained in the Policy regarding Communication and Contacts with Shareholders, Institutional Investors, and Proxy Advisors and are transparency, non-discrimination, truthfulness, and trustworthiness of the information supplied. The Finance and Resource Division, through the Investor Relations Division, manages their requests for information and requests submitted by institutional or retail investors (in the case of retail investors, through the Office of the Shareholder). The
Finance and Resource Division gives mandates to investment banks. The Development Division gives the appropriate advisory mandates to investment banks within the scope of its activities, in coordination with the Finance and Resource Division.

The independence of financial analysts is protected by the Investor Relations Division, which ensures the objective, fair, and non-discriminatory treatment thereof.

To actualise the principles of transparency and non-discrimination, always in strict compliance with regulations regarding the Securities Market, the Company has a number of communication channels:

- Personalised assistance for analysts, investors, and rating agencies.
- Publication of the information relating to quarterly results and other specific events, such as those relating to the submission of the Business Prospects or to corporate transactions.
- E-mail through the corporate website (accionistas@iberdrola.com) and a toll-free line for shareholders (+34 900 100 019).
- In-person and broadcasted presentations.
- Release of announcements and news.
- Visits to Company facilities.

C.1.36. State whether the Company has changed the external auditor during the financial year. If so, identify the incoming and the outgoing auditor:

C.1.40. State whether there is any procedure for directors to hire external advisory services, and if so, describe it:

Yes [x] No [ ]

Describe the procedure

Pursuant to the provisions of article 35 of the Regulations of the Board of Directors, in order to be assisted in the performance of the duties entrusted thereto, any director may request the hiring of legal, accounting, technical, financial, commercial, or other expert advisers, whose services shall be paid for by the Company.

The assignment must deal with specific issues of certain significance and complexity arising during the performance of the director’s duties.

The request for an expert to be hired shall be channelled through the secretary of the Board of Directors, who may subject it to the prior approval of the Board of Directors; such approval may be denied in well-founded instances, including the following circumstances:

a) That it is not necessary for the proper performance of the duties entrusted to the directors.

b) That the cost thereof is not reasonable in light of the significance of the issues and the assets and income of the Company.

c) That the technical assistance sought may be adequately provided by the Company’s own experts and technical personnel.

d) That it may entail a risk to the confidentiality of the information that must be made available to the expert.

Furthermore, article 25.2 of the Regulations of the Audit and Risk Supervision Committee, article 18.2 of the Regulations of the Appointments Committee, article 14.2 of the Regulations of the Remuneration Committee, and article 17.3 of the Regulations of the Corporate Social Responsibility Committee provide that such committees may seek advice from outside professionals, who shall submit their reports directly
to the chair of the relevant committee. It shall also be ensured that conflicts of interest do not undermine the independence of any external advice received.

C.1.41. State whether there is any procedure for directors to obtain sufficiently in advance the information required to prepare for meetings of management-level decision-making bodies and, if so, describe it:

Yes [x]  No  

<table>
<thead>
<tr>
<th>Describe the procedure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Section 16 of the General Corporate Governance Policy provides that “the Company has a programme to provide directors with information and updates in response to the need for professionalisation, diversification, and qualification of the Board of Directors.</td>
</tr>
<tr>
<td>In order to improve their knowledge of the Group, presentations are made to the directors regarding the businesses thereof. In addition, a portion of each meeting of the Board of Directors tends to be dedicated to a presentation on economic, legal, or political/social issues of importance to the Group.</td>
</tr>
<tr>
<td>The directors have access to a specific application, the directors’ website, that facilitates performance of their duties and the exercise of their right to receive information. This website includes information deemed appropriate for preparation of the meetings of the Board of Directors and the committees thereof in accordance with the agenda, as well as training materials intended for the directors and presentations made to the Board of Directors.</td>
</tr>
<tr>
<td>In addition, the directors shall be given access through the directors’ website to the minutes of the meetings of the Board of Directors and the committees thereof, as well as such other information that the Board of Directors resolves to include”.</td>
</tr>
<tr>
<td>Pursuant to an article 34.4 of the Regulations of the Board of Directors, there shall be an inclusion on the directors’ website of such information as is deemed appropriate for preparation of the meetings of the Board of Directors and the committees thereof, in accordance with the agenda included in the calls to meeting, as well as access to materials relating to director training programmes.</td>
</tr>
<tr>
<td>In addition, article 36.3.a) of the Regulations of the Board of Directors provides that a director is specifically required to “properly prepare the meetings of the Board of Directors and, if applicable, the meetings of the Executive Committee or of the committees of which the director is a member, for which purposes the director must diligently become apprised of the running of the Company and the matters to be discussed at such meetings”.</td>
</tr>
</tbody>
</table>

C.1.42. State whether the company has established any rules requiring directors to inform the company —and, if applicable, resign from their position— in cases in which the credit and reputation of the company may be damaged, and if so provide a detailed description:

Yes [x]  No  

<table>
<thead>
<tr>
<th>Explain the rules</th>
</tr>
</thead>
<tbody>
<tr>
<td>Section 17 of the General Corporate Governance Policy sets out the obligations and duties of the directors, including, as a statement of the duty of loyalty, the duty to submit their resignation to the Board of Directors in the event of supervening disqualification, lack of competence, prohibition against holding office as a director, and other instances provided for in the Company’s Corporate Governance System.</td>
</tr>
</tbody>
</table>
| As provided by subsections c) and d) of article 44.2 of the Regulations of the Board of Directors, the director must inform the Company of any judicial, administrative, or other proceedings instituted against the director which, because of their significance or characteristics, may seriously reflect upon the reputation of the Company. In particular, if a director is subject to investigation or an order for further criminal prosecution upon indictment, or if an order for the commencement of an oral trial is issued against the director for the commission of any of the crimes contemplated in section 213 of the Companies Act, such director shall give notice thereof to the Company, through the chairman of the Board of Directors. In such instance, the Board of Directors shall review this circumstance as soon as
practicable and, following a report of the Appointments Committee, shall adopt the decisions it deems fit taking into account the interests of the Company.

In addition, the director must inform the Company of any fact or event that may be relevant to the holding of office as a director.

Directors must also submit their resignation to the Board and formally resign from their position in the events set forth in article 16.3 of the Regulations of the Board of Directors, particularly:

a) When, due to supervening circumstances, they are involved in any circumstance of disqualification or prohibition provided by law or the Corporate Governance System.

b) When, as a result of any acts or conduct attributable to the director, serious damage is caused to the value or reputation of the Company or there is a risk of criminal liability for the Company or any of the companies of the Group.

c) When they cease to deserve the respectability or to have the capability, expertise, competence, availability, or commitment to their duties required to be a director of the Company.

In particular, when the activities carried out by the director, or the companies directly or indirectly controlled by the director, or the individuals or legal entities that are shareholders of or related to any of them, or the individual representing a corporate director, may compromise the competence of the director.

d) When they are seriously reprimanded by the Board of Directors because they have breached any of their duties as directors, by resolution adopted by a two-thirds majority of the directors.

e) When their continuance in office on the Board of Directors may for any reason, either directly, indirectly, or through persons related thereto, jeopardise the faithful and diligent performance of their duties in furtherance of the corporate interest.

f) When the reasons why the director was appointed cease to exist and, in particular, in the case of proprietary directors, when the shareholder or shareholders who proposed, requested, or decided the appointment thereof totally or partially sell or transfer their equity interest, with the result that such equity interest ceases to be significant or sufficient to justify the appointment.

g) When an independent director unexpectedly falls under supervening circumstances that prevent the director from being considered as such pursuant to the provisions of law.

In any of the instances set forth in section 3 of article 16 of the Regulations of the Board of Directors, the Board of Directors shall request the director to resign from such position and, if applicable, shall propose the director’s removal from office to the shareholders at the General Shareholders’ Meeting.

By way of exception, the resignation provisions set forth in letters f) and g) of article 16.3 of the Regulations of the Board of Directors cited above shall not apply when, after a report from the Appointments Committee, the Board of Directors believes that there are reasons that justify the director’s continuance in office, without prejudice to the effect that the new supervening circumstances may have on the classification of the director.

C.1.43. State whether any member of the board of directors has informed the company that such member has become subject to an order for further criminal prosecution upon indictment or that an order for the commencement of an oral trial has been issued against such member for the commission of any of the crimes contemplated in section 213 of the Companies Act:

Description of agreement

1. EXECUTIVE DIRECTORS

Pursuant to the provisions of his contract, the chairman & chief executive officer has the right to receive a severance payment in the event of termination of his relationship with the Company, provided that such termination is not the consequence of a breach attributable thereto or exclusively due to his own decision to withdraw. The amount of the severance payment is three times annual salary.

Furthermore, in consideration for his two-year non-compete commitment, the chairman & chief executive officer is entitled to severance equal to the remuneration for that period.

Since 2011, the Director Remuneration Policy provides that the limit on the amount of such severance under new contracts signed with executive directors shall be two times their annual salary.

2. OFFICERS

Some contracts with officers of Iberdrola include specific severance clauses. The purpose of such clauses is to obtain an effective and sufficient level of loyalty from senior officers who are necessary for the management of the Company and thus avoid a loss of experience and knowledge that might jeopardise the achievement of strategic objectives. The amount of the severance is determined based on length of service and the reasons for the officer’s withdrawal from office, up to a maximum of five times annual salary.

Notwithstanding the foregoing, the Senior Officer Remuneration Policy provides since 2011 that the limit on the amount of the severance under new contracts with senior officers shall be two times their annual salary.

3. EMPLOYEES

The contracts of employees linked to Iberdrola by an ordinary employment relationship do not generally include specific severance clauses and, accordingly, the applicable provisions of labour law shall apply in the event of termination of the employment relationship.

State whether such agreements must be reported to and/or approved by the decision-making bodies of the company or its group:

Explain the duties assigned to this committee, describe the procedures and rules of organisation and operation thereof, and summarise the most significant activities thereof during the year.

The Executive Committee is assigned all the powers of the Board of Directors, except for those powers that may not be delegated pursuant to legal or by-law restrictions. The chairman of the Board of Directors, and the chief executive officer, if any, are members in any case. The secretary of the Board of Directors acts as secretary of the Committee.

The Executive Committee shall meet as many times as deemed necessary by the chair thereof. It shall also meet when so requested by a minimum of two of the directors forming part thereof.

Resolutions of the Committee shall be adopted by absolute majority of its members who are present at the meeting in person or by proxy.

The duties of this Committee consist of making proposals to the Board regarding strategic decisions, investments, and divestitures that are significant for the Company or the Group, assessing their
conformity to the budget and the strategic plans and analysing and monitoring business risks.

The duties of the Committee are provided in article 38 of the By-Laws and are further developed in article 26 of the Regulations of the Board of Directors.

State whether the composition of the executive committee reflects the participation of the different directors within the board based on their class.

Yes [x] No [ ]

If no, explain the composition of your executive committee

Explain the duties assigned to this committee, describe the procedures and rules of organisation and operation thereof, and summarise the most significant activities thereof during the year.

The Audit and Risk Supervision Committee is an internal informational and consultative body.

A majority of its members shall be independent, and at least one of them shall be appointed taking into account the knowledge and experience thereof in the areas of accounting, audit, and risk management.

The Board of Directors shall appoint a chair of the Committee from among the independent directors forming part thereof, as well as its secretary, who need not be a director.

The members of the Audit and Risk Supervision Committee shall be appointed for a maximum term of four years and may be re-elected on one or more occasions for terms of the same maximum length. The chair shall hold office for a maximum period of four years, after which period the director who has held office as such may not be re-elected until the passage of at least one year from ceasing to act as such.

A valid quorum shall be established with the attendance at the meeting, in person or by proxy, of a majority of its members, and resolutions shall be adopted by an absolute majority of votes of the members present at the meeting in person or by proxy.

The duties of the Committee are provided in article 39 of the By-Laws and are further developed in article 26 of the Regulations of the Board of Directors, as well as in the Regulations of the Audit and Risk Superintendencia.
Identify the director who is a member of the audit committee and who has been appointed taking into account the director’s knowledge and experience in the areas of accounting, audit, or both, and report the number of years that the chair of this committee has held office.

C.2.3. Section deleted.

C.2.4. Section deleted.

C.2.5. State, if applicable, the existence of regulations of the board committees, where such regulations may be consulted, and the amendments made during the financial year. Also state if any annual report of the activities performed by each committee has been voluntarily prepared.

1. **AUDIT AND RISK SUPERVISION COMMITTEE**

The Audit and Risk Supervision Committee has its own Regulations, which may be viewed by interested
Article 20.2 of the Regulations of the Audit and Risk Supervision Committee provides that within three months following the end of each financial year of the Company, the Audit and Risk Supervision Committee shall submit to the Board of Directors for approval a Report describing its work during the financial year covered thereby, which shall be made available to the shareholders on occasion of the call to the Annual General Shareholders’ Meeting.

The Report for financial year 2016 was prepared by the Audit and Risk Supervision Committee at its meeting of 12 January 2017.

2. APPOINTMENTS COMMITTEE

The Appointments Committee has its own Regulations, which may be viewed by interested parties on the Company’s corporate website (www.iberdrola.com).

Article 20.2 of the Regulations of the Appointments Committee provides that within three months following the end of the Company’s financial year, the Committee shall submit to the Board of Directors for approval a report detailing its work for the financial year covered by the report.

The Report for financial year 2016 was prepared by the Appointments Committee at its meeting of 19 January 2017.

3. REMUNERATION COMMITTEE

The Remuneration Committee has its own Regulations, which may be viewed by interested parties on the Company’s corporate website (www.iberdrola.com).

Article 16.2 of the Regulations of the Remuneration Committee provides that within three months following the end of the Company’s financial year, the Committee shall submit to the Board of Directors for approval a report detailing its work for the financial year covered by the report.

The Report for financial year 2016 was prepared by the Remuneration Committee at its meeting of 13 January 2017.

4. CORPORATE SOCIAL RESPONSIBILITY COMMITTEE

The Corporate Social Responsibility Committee has its own Regulations, which may be viewed by interested parties on the Company’s corporate website (www.iberdrola.com).

Article 19.2 of the Regulations of the Corporate Social Responsibility Committee provides that within three months following the end of each financial year of the Company, the Committee shall submit to the Board of Directors for approval a report on its activities during the financial year covered by the report.

The Report for financial year 2016 was prepared by the Corporate Social Responsibility Committee at its meeting of 16 January 2017.

As a new development this year, an Activities Report of the Board of Directors and of the Committees thereof for financial year 2016 is published for purposes of the call to the General Shareholders’ Meeting.

This document replaces the traditional Annual Activities Report of the Consultative Committees of the Board of Directors (Committees Book), such that on this occasion it will also include information of interest regarding the activities carried out by the Board of Directors and by the Executive Committee during 2016.

This innovation is based on the Company’s commitment to good corporate governance practices and transparency and to the growing demand by shareholders and proxy advisors for companies to report on the activities of their governance bodies.

C.2.6. Section deleted.
D. RELATED-PARTY TRANSACTIONS AND INTRAGROUP TRANSACTIONS

D.1. Explain any procedures for approving related-party and intragroup transactions.

<table>
<thead>
<tr>
<th>Procedure for the approval of related-party transactions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Article 43 of the Regulations of the Board of Directors provides that:</td>
</tr>
<tr>
<td>1. Any transaction by the Company or the companies forming part of its Group with directors, with shareholders that directly or indirectly own a shareholding interest that is equal to or greater than that legally regarded as significant at any time or that have proposed or caused the appointment of any of the directors of the Company, or with the respective related persons (“Related-Party Transactions”), shall be subject to the approval of the Board of Directors, or in urgent cases, of the Executive Committee.</td>
</tr>
<tr>
<td>2. In the event that authorisation has been granted by the Executive Committee due to the urgency of the matter, the Executive Committee shall give notice thereof to the Board of Directors at its next meeting in order for it to be ratified.</td>
</tr>
<tr>
<td>3. The authorisation of Related-Party Transactions must be approved by the shareholders at the General Shareholders’ Meeting in the instances provided by law, and particularly if it relates to a transaction having a value of more than ten per cent of the corporate assets.</td>
</tr>
<tr>
<td>4. As an exception, Related-Party Transactions with any of the listed companies of the Group (as is the case of Avangrid, Inc.) or with the subsidiaries thereof shall not be subject to the provisions of article 43, provided that they have corporate governance rules similar to those of the Company.</td>
</tr>
<tr>
<td>5. The execution of a Related-Party Transaction puts the director engaging in said transaction or who is related to the person engaging in the transaction in a conflict of interest, for which reason the provisions of article 39 of the Regulations of the Board of Directors shall apply, to the extent applicable.</td>
</tr>
<tr>
<td>6. The Board of Directors, through the Appointments Committee, shall ensure that Related-Party Transactions are carried out under arm’s length conditions and with due observance of the principle of equal treatment of shareholders in the same situation. In the case of transactions to be carried out by companies of the Group, the scope of authorisation of the Board of Directors, or that of the Executive Committee, if applicable, referred to in the preceding sections, shall be circumscribed to the verification of compliance with such particulars.</td>
</tr>
<tr>
<td>7. In the case of customary and recurring Related-Party Transactions in the ordinary course of business, it shall be sufficient for the Board of Directors to give prior generic approval of the kind of transaction and of the conditions for performance thereof, following a report from the Appointments Committee.</td>
</tr>
<tr>
<td>8. If a Related-Party Transaction entails the successive performance of different transactions, of which the second and subsequent transactions are mere acts of execution of the first transaction, the provisions of this article 43 shall only apply to the first transaction carried out.</td>
</tr>
<tr>
<td>9. The authorisation shall not be required in connection with transactions that simultaneously satisfy the following three conditions: that they are conducted under contracts whose terms and conditions are standardised and apply on an across-the-board basis to a large number of customers; that they are conducted at prices or rates established generally by the party acting as supplier of the goods or services in question, and that the amount thereof does not exceed one percent of the consolidated annual income of the Group.</td>
</tr>
<tr>
<td>10. The Company shall report Related-Party Transactions in the Half-Yearly Financial Report and in the Annual Corporate Governance Report, in the cases and to the extent provided by law. Likewise, the Company shall include in the notes accompanying the annual accounts information regarding the transactions by the Company or by the companies of the Group with the directors and with those persons who act for the account of the latter when such transactions are conducted other than in the ordinary course of the Company’s business or other than under normal arm’s length conditions.</td>
</tr>
<tr>
<td>To this end, the directors must give written notice to the secretary of the Board of Directors, on a semi-annual basis, within the first week of January and July of each year, regarding the Related-Party Transactions that they have engaged in. If they are not carried out, the directors shall so report. The secretary of the Board of Directors shall send a notice to the directors on a semi-annual basis requesting the appropriate information that must be sent to the Company.</td>
</tr>
<tr>
<td>11. The notice must include the following information: the nature of the transaction; the date on which the transaction originated; the conditions and periods for payment; the name of the person who carried out the transaction and the relationship, if any, with the director; the amount of the transaction; and other aspects, such as pricing policies, guarantees given and received, and any other feature of the</td>
</tr>
</tbody>
</table>

43
transactions that allows for a proper assessment thereof, particularly such information as allows for verification that it has been carried out on arm’s length conditions and in compliance with the principle of equal treatment.

12. The secretary of the Board of Directors shall prepare a register of Related-Party Transactions. The information set forth in such register shall be made available to the Compliance Unit when it so requests, and shall also periodically be made available to the Audit and Risk Supervision Committee through the Internal Audit Area Division.

D.2. Describe those transactions that are significant due to the amount or subject-matter thereof between the company or entities of its group and the company’s significant shareholders:

<table>

<th>Amount (thousands of euros)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>

D.6. Describe the mechanisms used to detect, determine, and resolve potential conflicts of interest between the company and/or its group, and its directors, officers, or significant shareholders.

1. CONFLICTS OF INTEREST BETWEEN THE COMPANY AND THE DIRECTORS

Pursuant to article 39 of the Regulations of the Board of Directors, a conflict of interest shall be deemed to exist in those situations provided by law, particularly when the interests of the director, either for their own or another’s account, directly or indirectly conflict with the interest of the Company or of companies within the Group and their duties to the Company. An interest of a director shall exist when a matter affects the director or a person related thereto or, in the case of a proprietary director, when it also affects the shareholder or shareholders that proposed or caused the appointment thereof or persons directly or indirectly related thereto.

Such article contains a list of persons deemed to be related for such purposes, distinguishing between an individual and a corporate director.

Conflicts of interest shall be governed by the following rules:

a) Communication: once a director becomes aware of being in a situation of conflict of interest, the director must give written notice of the conflict to the Board of Directors, in the person of the secretary thereof. The secretary shall periodically submit a copy of the notices received to the Appointments Committee, in the person of the secretary thereof.

The notice shall contain a description of the situation giving rise to the conflict of interest, with a statement as to whether it is a direct conflict or an indirect conflict through a related person, in which case the latter person must be identified.

The description of the situation must describe, as applicable, the subject matter and the principal terms of the transaction or the planned decision, including the amount thereof or an approximate financial assessment thereof. If the situation giving rise to the conflict of interest is a Related-Party Transaction (as this term is defined in article 43), the notice shall also identify the department or person of the Company or of any of the companies of the Group with which the respective contacts were made.

Any question as to whether a director might be involved in a conflict of interest must be forwarded to the secretary of the Board of Directors, and the director must refrain from taking any action until it is resolved.

b) Abstention: if the conflict arises from an operation, transaction, or circumstance that requires any kind of operation, report, decision, or acceptance, the director must refrain from taking any action until the Board of Directors studies the case and adopts and informs the director of the appropriate decision.

To this end, the director shall leave the meeting during the deliberation and voting on those matters in which the director is affected by a conflict of interest, and shall not be counted in the number of members attending for purposes of the calculation of a quorum and majorities.

At each meeting of the Board of Directors and of the committees thereof, the secretary shall remind the directors, before dealing with the agenda, of the abstention rule established in this article.

c) Transparency: whenever required by law, the Company shall report any cases of conflict of interest in which the directors have been involved during the financial year in question and of which the Company is aware by reason of notice given thereto by the director affected by such conflict or by
any other means.

However, if the conflict of interest situation is, or may reasonably be expected to be, of a structural and permanent nature, it shall be deemed that there is a loss of the competence required to hold office. In this regard, article 16 of the Regulations of the Board of Directors provides that a loss of competence is an event of resignation, removal, and withdrawal of the director.

2. CONFLICTS OF INTEREST BETWEEN THE COMPANY AND THE SENIOR OFFICERS AND OTHER PERSONS SUBJECT TO CONFLICT OF INTEREST RULES

The Procedure for Conflicts of Interest and Related-Party Transactions with Senior Officers subjects these kinds of conflicts to the same rules of communication, abstention, and transparency.

3. CONFLICTS OF INTEREST BETWEEN THE COMPANY AND SIGNIFICANT SHAREHOLDERS

Transactions between companies forming part of the Group with significant shareholders or shareholders that have proposed the appointment of any of the directors and their respective related persons are dealt with in article 43 of the Regulations of the Board of Directors mentioned in section D.1. They must be carried out on arm’s-length conditions and be previously approved by the Board of Directors. Approval by the shareholders at a General Shareholders’ Meeting shall be required if the value of the transaction exceeds 10% of the corporate assets. All transactions shall be reported in the Annual Corporate Governance Report and in the Annual Financial Report.

4. CONFLICTS OF INTEREST WITH OTHER EMPLOYEES

The Code of Ethics, which dedicates a specific section to conflicts of interest, applies to all professionals within the Group, regardless of rank.

D.7. Is more than one company of the group listed in Spain?

Yes ☐ No ☒

Identify the subsidiaries listed in Spain:

<table>
<thead>
<tr>
<th>Listed subsidiaries</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

State whether they have publicly and accurately defined their respective areas of activity and any possible business relationships among them, as well as those between the listed dependent company and the other companies within the group:

Yes ☐ No ☒

Describe the possible business relationships between the parent company and the listed subsidiary, and between the subsidiary and the other companies within the group:

Identify the mechanisms established to resolve possible conflicts of interest between the listed subsidiary and the other companies within the group:

<table>
<thead>
<tr>
<th>Mechanisms for the resolution of possible conflicts of interest</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>
E. RISK CONTROL AND MANAGEMENT SYSTEMS

E.1. Explain the scope of the company’s Risk Management System, including the system for managing tax risks.

The General Risk Control and Management Policy and the Risk Policies that further develop such risks apply to all companies over which the Company has effective control, within the limits established by the laws applicable to the regulated activities carried out by the Group in the various countries in which it operates.

The General Risk Control and Management Policy and the basic principles underpinning it are implemented by means of a Comprehensive Risk Control and Management System, supported by a Risk Committee of the Group and based upon a proper definition and allocation of duties and responsibilities at the operating level and upon supporting procedures, methodologies, and tools, covering the following stages:

a) The ongoing identification of significant risks and threats based on their possible impact on key management objectives and the accounts (including contingent liabilities and other off-balance sheet risks).

b) The analysis of such risks, both at each corporate business or function and taking into account their combined effect on the Group as a whole.

c) The establishment of a structure of policies, guidelines, and limits, as well as of the corresponding mechanisms for the approval and implementation thereof, which effectively contribute to risk management being performed in accordance with the Company’s risk appetite.

d) The measurement and monitoring of risks, by following consistent procedures and standards that are common to the Group as a whole.

e) The analysis of risks associated with new investments, as an essential element of decision-making based upon profitability/risk.

f) The maintenance of an internal system for monitoring compliance with policies, guidelines, and limits, by means of appropriate procedures and systems, including the contingency plans needed to mitigate the impact of the materialisation of risks.

g) The periodic monitoring and control of profit-and-loss account risks in order to control the volatility of the annual income of the Group.

h) The ongoing evaluation of the suitability and efficiency of applying the system and the best practices and recommendations in the area of risks for eventual inclusion thereof in the model.

i) The audit of the system by the Internal Audit Division.

Developed in accordance with the following basic action principles:

a) Integrate the risk/opportunity vision into the Company’s management, through a definition of the strategy and the risk appetite and the incorporation of this variable into strategic and operating decisions.

b) Segregate functions, at the operating level, between risk-taking areas and areas responsible for the analysis, control, and monitoring of such risks, ensuring an appropriate level of independence.

c) Guarantee the proper use of risk-hedging instruments and the maintenance of records thereof as required by applicable law.

d) Inform regulatory agencies and the principal external players, in a transparent fashion, regarding the risks facing the Group and the operation of the systems developed to monitor such risks, maintaining suitable channels that favour communication.

e) Ensure appropriate compliance with the corporate governance rules established by the Company through its Corporate Governance System and the update and continuous improvement of such system within the framework of the best international practices as to transparency and good governance, and implement the monitoring and measurement thereof.

f) Act at all times in compliance with the law and the Company’s Corporate Governance System and, specifically, with due observance of the values and standards of conduct reflected in the Code of Ethics and the principles and good practices reflected in the Corporate Tax Policy, under the principle of zero tolerance towards the commission of unlawful acts and situations of fraud set forth in the Crime Prevention Policy and in the Anti-Corruption and Anti-Fraud Policy.

Excluded from the scope of this policy are listed country subholding companies and the subsidiaries...
thereof which, pursuant to their own special framework of strengthened autonomy, have their own risk policies approved by their competent bodies. In any event, said risk policies must be in accord with the principles set forth in this *General Risk Control and Management Policy* and in the other *Risk Policies* of the Company.

At those companies in which the Company has an interest but which do not belong to the Group, the Company shall promote principles, guidelines, and risk limits consistent with those established in the *General Risk Control and Management Policy* and in its supplemental *Risk Policies* and shall maintain appropriate channels of information to ensure a proper understanding of risks.

### E.2. Identify the decision-making bodies of the company responsible for preparing and implementing the Risk Management System, including the system for managing tax risks.

The Board of Directors of the Company undertakes to develop all of its capabilities in order for the significant risks to all the activities and businesses of the Group to be adequately identified, measured, managed, and controlled, and establishes through the *General Risk Control and Management Policy* the mechanisms and basic principles for appropriate management of the risk/opportunity ratio, at a risk level that makes it possible to:

- a) attain the strategic objectives formulated by the Group with controlled volatility;
- b) provide the maximum level of assurance to the shareholders;
- c) protect the results and reputation of the Group;
- d) defend the interests of customers, shareholders, other groups interested in the progress of the Company, and society in general; and
- e) ensure corporate stability and financial strength in a sustained fashion over time.

1. **BOARD OF DIRECTORS**

   Within its area of authority, and with the support of the Audit and Risk Supervision Committee, it promotes the implementation of the mechanisms required to ensure the adequate identification, measurement, management, and control of all significant risks, defines the strategy and profile of the Company's risks, including tax risks, and approves the Group's *Risk Policies*.

2. **EXECUTIVE COMMITTEE**

   In order to align the risk impact with the established risk appetite, the Board of Directors, acting at the proposal of the business or corporate divisions involved and upon a prior report from the Group's Risk Committee, annually reviews and approves specific guidelines regarding the risk limits from the Corporate Policies of the Group.

   Pursuant to established guidelines, competent management decision-making bodies of the country subholding companies and each of the principal companies of the Group, within their area of responsibility, annually review and approve the specific risk policies and limits applicable to each of them and implement the control systems required to ensure compliance with the *General Risk Control and Management Policy* and with the limits thereunder.

3. **AUDIT AND RISK SUPERVISION COMMITTEE**

   As a consultative body of the Board of Directors, it is charged with the following duties:

   - Directly supervise the unit vested with the power to actively participate in the preparation of the Company's risk strategy and in significant decisions affecting the management thereof.
   - Continuously review the internal control and risk management systems, such that the principal risks are properly identified, managed, and reported.
   - Ensure that the Group's risk control and management system identifies at least:
     - The various risk factors to which the Company is exposed, including contingent liabilities and other off-balance sheet risks among financial, economic, or tax risks;
     - The establishment and review of the risk map and levels that the Company deems acceptable.
     - The measures planned in order to mitigate the impact of identified risks in the event that they materialise.
- The internal control and reporting systems to be used to control and manage the above risks.

- (Specifically in the tax area) Receive from the Company’s tax director information on the tax guidelines used by the Company during the financial year and, in particular, on the level of compliance with the Corporate Tax Policy, and report to the Board of Directors on the tax policies applied and, in the case of transactions or matters that must be submitted to the Board of Directors for approval, regarding the tax consequences thereof when such consequences represent a significant issue.

- Maintain appropriate relationships with the Risk Division and with the audit and compliance committees of the other companies of the Group.

- Report in advance on the risks of the Group to be included in the Company’s Annual Corporate Governance Report and give notice thereof to the Board of Directors, through the Corporate Social Responsibility Committee, for an assessment of its conclusions.

### 4. BOARDS OF DIRECTORS OF COUNTRY SUBHOLDING COMPANIES OF THE PRINCIPAL COUNTRIES IN WHICH THE GROUP OPERATES

They are assigned the power to approve the Risk Policies for the various businesses of the Group in the country in question as well as to establish the limits and specific risk indicators applicable to such businesses, based on the nature and unique aspects of each country.

### 5. RISK COMMITTEE OF THE GROUP

The Risk Committee of the Iberdrola Group is a technical body chaired by the chief financial officer, and which performs executive duties in connection with customary risk management and gives advice to the Group’s governance bodies.

The Committee meets, at a minimum, one time per month, with the participation of the Group’s director of Risk Management, those responsible for risks at the corporate businesses and areas that have a Risk Management function, the Internal Audit Division, and the Administration and Control Division.

The Group’s Risk Committee is complemented with the Credit Risk and Market Risk Committees of the Group, which report to said Risk Committee and which meet on a fortnightly and monthly basis, respectively, to discuss and decide on credit and market (financial and commodities) risk issues.

---

**E.3. Point out the principal risks, including tax risks, that could affect the achievement of business goals.**

The Group is subject to various risks inherent in the different countries, industries, and markets in which it does business and in the activities it carries out, which may prevent it from achieving its objectives and successfully implementing its strategies.

The section entitled “Main risk factors associated with the activities of the Iberdrola Group” of the Management Report within the Annual Report for financial year 2016 provides a detailed description of the principal risks associated with the activities carried out by the main businesses of the Group, as well as the risks of the corporation.

Owing to its universal and dynamic nature, the comprehensive risk system allows for the consideration of new risks that may affect the Group following changes in its operating environment or revisions of objectives and strategies, as well as adjustments resulting from ongoing monitoring, verification, review, and supervision activities.

Pursuant to the definitions established by the General Risk Control and Management Policy, at the Group level, risks are classified as follows:

a) **Corporate Governance Risks:** the Company accepts the need to achieve the fulfilment of the corporate interest and the sustained maximisation of the economic value of the Company and its long-term success, in accordance with the Group's corporate interest, culture, and corporate vision, taking into account the legitimate public and private interests that converge in the conduct of all business activities, particularly those of the various Stakeholders and the communities and regions in which the Company and its employees act. A fundamental requirement for the foregoing is compliance with the Company's Corporate Governance System, made up of the By-Laws, the Corporate Policies, the internal corporate governance rules, and the other internal codes and procedures approved by the competent decision-making bodies of the Company and inspired by the good governance recommendations generally recognised in international markets.

b) **Market Risks:** defined as the exposure of the Group’s results and assets to changes in market prices...
and variables, such as exchange rates, interest rates, commodity prices (electricity, gas, CO2 emission allowances, other fuel, etc.), prices of financial assets, and others.

c) Credit Risks: defined as the possibility that a counterparty fails to perform its contractual obligations, thus causing an economic or financial loss to the Group. Counterparties can be end customers, counterparties in financial or energy markets, partners, suppliers, or contractors.

d) Business Risks: defined as the uncertainty regarding the performance of key variables inherent in the business, such as the characteristics of demand, weather conditions, the strategies of different players, and others.

e) Regulatory and Political Risks: defined as those arising from regulatory changes made by the various regulators, such as changes in compensation of regulated activities or in the required conditions of supply, or in environmental or tax regulations, including risks relating to political changes that might affect legal security and the legal framework applicable to the businesses of the Group in each jurisdiction, nationalisation or expropriation of assets, the cancellation of operating licences, and the early termination of government contracts.

f) Operational, Technological, Environmental, Social, and Legal Risks: defined as those related to direct or indirect economic losses resulting from inadequate internal procedures, technical failures, human error, or as a consequence of certain external events, including the economic, social, environmental, and reputational impact thereof, as well as legal and fraud risks. Said risks include those associated with information technology and cybersecurity, and with technological obsolescence, among others.

g) Reputational Risks: potential negative impact on the value of the Company as a result of conduct by the company below the expectations created among various Stakeholders, as defined in the Stakeholder Relations Policy.

### E.4. Identify whether the entity has a risk tolerance level, including one for tax risk.

</tbody>
</table>
In general terms, the Corporate Policies, applicable to all of the Group’s businesses, establish the framework and the proper practices for the control, management, and mitigation of the various types of risks and establish overall risk limits to be place among the various businesses, measured in the form of physical, notional, and/or probability figures (VaR, Profit/Risk, CVaR, etc.), through measures such as:

- Limits on maximum global credit risk exposure by type of counterparty
- Limits to market risk proportional to the volume of activity of each business
- Strict global limit on discretionary energy trading
- Limits on operational risk through preventive maintenance programmes and insurance programmes
- Strict limits on activities not associated with the main energy business
- Other

The Risk Policies of each of the main businesses of the Group establish the framework and the authorised activities for each of them, together with the qualitative and quantitative risk guidelines, limits, and indicators that should be applicable thereto, adjusted to the specific nature of each of them.

The Corporate Tax Policy establishes the limits on tax risk by setting the tax strategy, principles of conduct, and good tax practices assumed by the Company.

The General Risk Control and Management Policy, as well as a summary of the Corporate Risk Policies and another summary of the Specific Risk Policies for the Various Businesses of the Group, are available on the corporate website (www.iberdrola.com).

E.5. State what risks, including tax risks, have materialised during the financial year.

The risk factors that materialised in the countries and markets in which Iberdrola does business did not have a significant impact on income for the financial year, thanks to the diversification of activities, markets, and geographical areas of the Group, which made it possible for the negative effects of some businesses to be offset by a favourable performance in others.

Note should be taken of the following positive events that have eliminated risks or threats:

- The improvement of the economic situation in Spain during 2016, with GDP growth of 3.2% and a 1.5 point improvement in the unemployment rate, which has translated into a 0.7% (0% adjusted) growth in electricity demand.
- The approval of Order IET 980/2016 establishing the remuneration of electricity distribution companies in Spain, which set total remuneration for the Group at 1,655 million euros for 2016 (2.7% above 2015) and a regulated assets base (RAB) for the Group’s distribution assets at 8,694 million euros, eliminating the corresponding existing uncertainties in this regard.
- The approval on terms favourable to the Group of the remuneration frameworks (rate cases) of: RG&E and NYSEG by the New York regulator, with a base ROE of 9% beginning July 2016 for a 3-year period; and (ii) UI by the Connecticut regulator, with a base ROE of 9.1% beginning in January 2017 for a 3-year period, which eliminate the main uncertainties relating to the principal network businesses of the Group in the USA for the coming years.
- The publication in the United Kingdom, on terms favourable to the sector, of the final report of the Competition Markets Authority (CMA) on the analysis of the retail gas and electricity market in the United Kingdom, without significant impacts for Scottish Power Ltd.
- The significant recovery during 2016 of international prices for coal (96%), gas (60%) and petroleum (59%), with the resulting positive impact on final electricity prices and increased margin for technologies without a variable cost factor.

Risks that have materialised include:
The unfavourable evolution of some of the projects of Iberdrola Engineering & Construction, causing a 125 million euro decrease (i.e. 100 million euro decrease after taxes) in the EBITDA contributed by the Business to the Group.

The tax inspection commenced in 2014 by the National Tax Administration Agency (Agencia Estatal de Administración Tributaria) regarding the 2008-2011 Corporate Income Tax of the Iberdrola tax Group, 2010-2011 VAT, and other taxes, ended in 2016 with the signing of assessment instruments with agreement, consent, and disagreement of the taxpayer.

The settlements deriving from assessment instruments with agreement and consent have been paid in 2016 and have not have negative effects on the income statement, because they were provisioned.

The settlements deriving from assessment instruments without consent have been appealed to the Central Administrative Economic Tribunal (Tribunal Económico Administrativo Central), and a suspension of payment of the assessed debts has been suspended by means of the provision of corresponding bank guarantees. These settlements have also not had negative effects on the income statement because they were evaluated as being probable. No liabilities additional to those already booked at 31 December 2016 are expected to arise.

Finally, it should be noted that activities in 2017 will be subject to the following risk factors:

- The process of negotiation of the United Kingdom's exit from the European Union and the policies that may be adopted by the new United States administration, together with the uncertainty associated with the electoral processes in France and Germany, may cause financial turbulence in the international financial markets, with an expected increase in volatility in exchange rates (with a risk of depreciation of the pound and the Mexican peso) and increases in interest rates in the United States.

- The possible impact on the Mexican economy of some of the possible new political and economic measures announced during the recent electoral campaign in the United States, such as the possible implementation of customs duty, with a potential decrease in electricity demand by the most affected industries.

- The uncertainty associated with the final development of the Mexican electricity reform, and particularly the approval of the CFE’s new electricity tariff, the main benchmark for free market energy contracts, to which the Group allocates approximately 20% of its production in Mexico.

- The uncertainty associated with the possible confirmation during 2017 of the improvement in macroeconomic data observed at the end of 2016 in Brazil, after a difficult year politically, characterised by the impeachment of Ms. Rousseff, and economically, in terms of GDP, inflation, and unemployment, translating into a decrease in the demand for electricity from our electricity distribution company Elektro.

- Despite the recovery of raw materials prices stated above, they are at low levels compared to the levels of only a few years ago, and uncertainty persists regarding the future performance thereof.

- In the United States, the progressive increase in exposure to market prices in renewables as a result of the expiration of long-term power purchase agreements (PPAs) within the context of low electricity prices.

E.6. Explain the plans for responding to and supervising the entity's main risks, including tax risks.

The Comprehensive Risk System, together with the Company’s control and management policies and systems that develop it, including the Company’s Risk Committee and Operating Committee, have allowed for the identification of new risks and threats sufficiently in advance, and to establish appropriate mitigation plans.

The Company’s Operating Committee meets on close to a weekly basis.

The Group’s Risk Committee meets on a monthly basis, reviews the various risks, and on a quarterly basis approves a Quarterly Risk Report of the Company, which includes the main risk positions, a report on compliance with policies and limits, and an update of the key risk maps.

The Audit and Risk Supervision Committee of the Board of Directors periodically monitors the evolution of the Company’s risks at least on a quarterly basis:

- It reviews the Quarterly Risk Reports of the Group, which include monitoring compliance with risk
- limits and indicators and updated key risk maps, submitted by the Group’s director of Corporate Risks.
- It coordinates and reviews Risk Reports sent periodically (at least half-yearly) by the audit and compliance committees of the country subholding companies and head of business companies of the Group.
- It prepares a Risk Report for the Board of Directors at least half-yearly.
F. INTERNAL RISK CONTROL AND MANAGEMENT SYSTEMS IN CONNECTION WITH THE PROCESS OF ISSUING FINANCIAL INFORMATION (ICFRS)

Describe the mechanisms making up the risk control and management systems with respect to the process of issuing the entity’s financial information (ICFRS)

F.1. Control environment at the entity

Indicate at least the following, specifying the main features thereof:

F.1.1. What bodies and/or functions are responsible for: (i) the existence and maintenance of an adequate and effective internal control over financial reporting system (ICFRS); (ii) the implementation thereof; and (iii) oversight thereof.

The Board of Directors has the ultimate responsibility for the existence of an adequate and effective internal control over financial reporting system (ICFRS) lies with the Board of Directors of Iberdrola. The Boards of Directors of the country subholding companies and the head of business companies also have this responsibility within their various purviews.

The persons in charge of the country subholding companies and the head of business companies, together with the respective control officers, as well as the directors of the global corporate areas, are responsible for the design and implementation of the ICFRS. Such responsibility is expressly set forth in the certifications signed by such persons on a half-yearly basis in connection with the financial information for their respective areas of responsibility.

Pursuant to article 26.7.d of the Regulations of the Board of Directors, the Audit and Risk Supervision Committee has the power to monitor the effectiveness of the internal control of the Company and its Group. The Committee draws on the support of the Internal Audit Area Division to discharge such responsibility. Any audit and compliance committees at the country subholding and head of business companies have this power within their respective purviews.

F.1.2. Whether any of the following are in place, particularly as regards the financial information preparation process:

- Departments and/or mechanisms in charge of: (i) the design and revision of the organisational structure; (ii) clearly defining the lines of responsibility and authority, with an appropriate distribution of work and duties; and (iii) ensuring that there are sufficient procedures for the proper dissemination thereof at the entity.

The Board of Directors of Iberdrola defines the top-level organisational structure. The heads of such top-level organisations, together with the Human Resources Division, are responsible for deployment within their respective areas.

Each top-level division prepares a proposed organisation structure, including a description of the mission, duties, and responsibilities of the various organisations deployed, which must then be validated by the Human Resources Division and the Finance and Resources Division.

Primary responsibility for the preparation of financial information lies with the corporate Administration and Control Division. This division proposes the structure of those responsible for Control at the country subholding companies and head of business companies and is in charge of coordinating and supervising their activities.

- Code of conduct, body that approves it, degree of dissemination and instruction, principles and values included (indicating whether the...
The Iberdrola Group has a Code of Ethics, approved by the Board of Directors. According to article 2.1 thereof, “the principles and guidelines for conduct contained in the Code of Ethics apply to all of the Group’s professionals, regardless of seniority, geographic or functional location, or the company of the Group for which they provide their services”. The Code of Ethics is communicated to and disseminated among the professionals of the Iberdrola Group in accordance with the plan approved for such purpose by the Compliance Unit.

Article 33 of the Code of Ethics expressly provides as follows:

“The Group shall provide true, proper, useful, and consistent information regarding its programmes and actions. The transparency of the information required to be disclosed is a basic principle that must govern the actions of Group professionals.

The economic/financial information of the Group (especially the annual accounts) shall faithfully reflect its economic and financial position and its net worth, in accordance with generally accepted accounting principles and applicable international financial reporting standards. For such purposes, no professional shall conceal or distort the information set forth in the accounting records and reports of the Group, which shall be complete, accurate, and truthful.

A lack of honesty in the communication of information, whether internally within the Group (to employees, subsidiaries, departments, internal bodies, management decision-making bodies, etc.) or outside the Group (to auditors, shareholders and investors, regulatory entities, the media, etc.), is a breach of the Code of Ethics. This includes delivering incorrect information, organising it in an incorrect manner, or seeking to confuse those who receive it”.

Control of the application of the Code of Ethics is a duty of the Compliance Unit, a body linked to the Corporate Social Responsibility Committee of the Company’s Board of Directors, with duties in the area of regulatory compliance and the Company’s Corporate Governance System. This Unit evaluates and prepares an annual report on the level of compliance with the Code of Ethics. The report is transmitted to the Human Resources Division, to the Company’s Internal Audit Area Division, and to the Corporate Social Responsibility Committee. In turn, the latter transmits it to the competent governance bodies, to the Company’s chairman & chief executive officer, and to the Audit and Risk Supervision Committee.

The Compliance Unit also has the duty to determine whether a Group professional has conducted activities in violation of the law or of the Code of Ethics and, if applicable, to direct the Human Resources Division, or the Division responsible for the human resources function at the relevant Group company, to apply disciplinary measures in accordance with the rules on breach of duties and penalties contained in the collective bargaining agreement to which the professional belongs or in applicable labour law provisions.

Pursuant to article 44.1 thereof, the professionals of the Group expressly accept the rules of conduct established in the Code of Ethics.

In addition, pursuant to article 44.2, professionals who join or become part of the Group in the future shall expressly accept the principles and rules of conduct set forth in the Code of Ethics, which document shall be attached to their respective employment contracts.

• Reporting channel that makes it possible to report any irregularities of a financial or accounting nature to the audit committee, as well as any possible breach of the code of conduct and irregular activities at the organisation, specifying, if appropriate, whether it is confidential.

Iberdrola has a procedure in place that must be followed by all employees of the Group who wish to report potentially significant irregularities of a financial and accounting nature and that allows them to report such irregularities, by e-mail or regular mail, to the chair of the Audit and Risk Supervision Committee.

As established in the procedure itself, the Company’s Board of Directors guarantees that the name of the reporting person and the irregularity reported shall be treated in the strictest confidence, both in the reporting process and in any process for the assessment and clarification of the facts conducted by the Audit and Risk Supervision Committee and the organisations of the Company or third parties participating.
at the request of such Committee.

In accordance with the above-mentioned procedure, the chair of the Audit and Risk Supervision Committee receives and admits the report for further processing. Such admission is made on the basis of the requirements established in the procedure (name of the sender, sufficiently detailed information on the situation reported, need for the report to fall within the scope of the channel, confidentiality guarantee, personal data protection, etc.).

No reports were received during financial year 2016.

- Regular training and update programmes for personnel involved in the preparation and review of financial information, as well as in the evaluation of the internal control over financial reporting system, covering at least accounting standards, auditing, internal control, and risk management.

Personnel involved in the preparation and review of financial information, as well as in the evaluation of the internal control over financial reporting system, receives regular training on accounting standards, auditing, internal control, and risk management, according to its specific responsibilities.

In accordance with the organisational structure of the Iberdrola Group, the divisions that have a direct relationship with these types of duties are the Internal Audit Division, the Administration and Control Division, and the Finance and Resources Division.

During financial year 2016, the personnel involved in these duties in Spain received 19,018 hours of training, of which the training in Spain, Mexico, and at Scottish Power Ltd. are noteworthy and are further described below.

The personnel involved in these duties in Spain received 14,094 hours of training, of which 8,434 hours, organised into 163 training activities, were dedicated to technical training directly related to the responsibilities discharged by such personnel, which accounts for 60% of the training they receive, with 511 professionals participating in these courses. There were 3,325 total hours of training at Scottish Power Ltd.

There were 1,463 total hours of training in Mexico, of which 925 hours were for specific technical training, organised into 11 training activities.

The rest of the training hours were carried out by personnel of these organisations at Elektro and Avangrid, Inc. (United States).

Most of these courses are provided by external entities: business schools, universities, or consulting firms specialising in economic/financial issues.

Especially noteworthy is the receipt of various professional certificates by Iberdrola professionals in these functional areas:

- “Certified Internal Auditor (CIA), by two professionals in Spain and two at Avangrid.
- “Certified Internal Auditor” (CISA), by one professional in Spain and two at Avangrid.
- “Certified Fraud Examiner” (CFE), “Certification in Risk Management Assurance” (CRMA) and “Certified Public Accountant” (CPA) by 7 professionals at Avangrid.

The technical training activities in which these professionals engaged include:

- Advanced bank risk analysis
- Advanced business financial analysis
- Payment approvers
- Audit of investments
- NST bank reconciliation
- Treasury reconciliation
- Risk analysis and management practical course
- Excel - financial management applications
- Taxes
Generally, these professionals have also taken courses to improve their qualifications in the use of the office automation tools required to perform their duties, mainly Excel.

It should be noted that several international meetings were organised during 2016 among the professionals in these areas, like the X Global Internal Audit Days.

F.2 Risk assessment of financial information

Indicate at least the following:

F.2.1. What are the main features of the risk identification process, including the process of identifying the risks of error or fraud, with respect to:

- Whether the process exists and is documented.

The process for the identification of risks of error in financial information is one of the most important steps in the method for the development of internal control of the financial information of Iberdrola, and the goals, implementation, and results thereof are documented.

The method starts with a review of the consolidated financial information of the Iberdrola Group and of the various country subholding companies in order to select the most significant accounts and notes to the accounts, in accordance with both quantitative (materiality) and qualitative (business risk and visibility to third parties) standards. The selected accounts and notes are grouped into management cycles or large processes in which the selected information is generated. The cycles are analysed and a description of each is prepared, as a way of identifying possible risks of error in the financial information, in connection with attributes such as completeness, presentation, assessment, cut-off, recording, and validity. The identified risks are submitted to a process of prioritisation, such that the most significant ones are selected by applying professional judgement on a number of indicators (existence of documented processes and controls, existence of systems that automate the processes, whether there have been any incidents in the past, whether the process is known and mature, or whether judgements need to be made to make estimates). The risks of fraud are not explicitly identified, although they are taken into account to the extent that they might generate material errors in financial information.

Once the most significant risks have been selected, the controls needed to mitigate or manage them are selected and designed; such controls are monitored, documented, and systematically reviewed by the Internal Audit Area.

The risks selected are reviewed at least on an annual basis, within the framework of the assessment of...
the effectiveness of internal control carried out by the persons or divisions responsible therefor. The purpose of such review is to adjust the risks to the changing circumstances in which the Company operates, particularly in the event of changes in the organisation, information technology systems, regulations, products, or the situation of the markets.

- Whether the process covers all the objectives of financial information (existence and occurrence; completeness; assessment; presentation, breakdown and comparability, and rights and obligations), whether it is updated, and how often.

As mentioned above, the cycles or large processes in which financial information is generated are reviewed at least on an annual basis in order to identify possible risks of error, in connection with attributes such as validity (existence and authorisation), completeness, assessment, presentation, cut-off, and recording.

- The existence of a process for the identification of the scope of consolidation, taking into account, among other matters, the possible existence of complex corporate structures, holding entities, or special purpose entities.

The scope of consolidation is identified on a monthly basis, and the result thereof is the updated corporate map, which expressly identifies the changes that occurred in each period.

This review covers all companies in which Iberdrola or any of its subsidiaries has an interest, no matter how small.

In accordance with the provisions of section 529 of the Companies Act, the Regulations of the Board of Directors provide that the Board of Directors has the power to, among other things, approve the creation or acquisition of equity interests in special purpose entities (“SPEs”) or entities registered in countries or territories that are considered to be tax havens (“THEs”), as well as any other transactions or operations of a similar nature that, due to their complexity, might diminish the transparency of the Group.

In accordance with the same law, the Regulations of the Audit and Risk Supervision Committee of Iberdrola provide that the Audit Committee must report to the Board of Directors prior to such decisions being adopted on the creation or acquisition of said entities.

Accordingly, whenever the Company intends to create a special purpose entity or an entity registered in a tax haven, or to acquire an interest in one, the transaction requires a favourable report of the Audit and Risk Supervision Committee and subsequent approval of the Board of Directors.

There are specific procedures for such purpose, tailored to the current corporate governance model, according to which such initiative is to be taken by the Division of the Group or country subholding company, head of business company, or company in which an interest is held through them, that intends to create or acquire a special purpose company or a company registered in a tax haven. In the case of companies that have a board of directors and an audit committee, their corporate governance bodies must first review the proposed transaction.

- Whether the process takes into account the effects of other types of risks (operational, technological, financial, legal, tax, reputational, environmental, etc.) to the extent that they affect the financial statements.

The process for the identification of risks of error in financial information takes into account the effects of other types of risks (operational, technological, legal, tax, reputational, environmental, etc.) to the extent that they affect the accounts; such risks are assessed and managed by different corporate units such as the Risk Division or Legal Services, among others. However, no express identification of such other types of risks is carried out to identify financial information risks.

- What governance body of the entity supervises the process.
The governance body that supervises the process is the Audit and Risk Supervision Committee, which draws on the support of the Internal Audit Area Division to discharge this responsibility.

F.3. Control activities

Indicate whether at least the following are in place and describe their main features:

F.3.1. Procedures for review and authorisation of financial information, and description of the internal control over financial reporting system to be published in the securities market, indicating the persons or divisions responsible therefor, as well as documentation describing the flows of activities and controls (including those relating to risk of fraud) of the various types of transactions that could materially affect the financial statements, including the closing process and the specific review of significant judgements, estimates, assessments, and projections.

The process or structure of certification of financial information, conducted formally on a half-yearly basis, on the dates of the year-end and interim closing processes, reflects the manner in which financial information is generated in the Group.

In such structure, the persons in charge of the country subholding companies and those responsible for the head of business companies, together with the respective directors of control, and the heads of the global corporate areas, certify both the reliability of the financial information in the areas under their responsibility (which is the information they provide for purposes of consolidation at the Group level) and the effectiveness of the internal control system established to reasonably ensure such reliability. Finally, the chairman & chief executive officer, as the highest executive authority, and the director of Administration and Control, as the person responsible for the preparation of financial information, certify the reliability of the consolidated accounts to the Board of Directors.

The Audit and Risk Supervision Committee, with the support of the Internal Audit Area Division, supervises the entire certification process, and submits the conclusions of such review to the Board of Directors at the meetings at which the accounts are formally approved.

As regards the description of the internal control over financial reporting system (ICFRS) to be published in the securities markets, the review and authorisation procedure is the same as that used for all contents of an economic and financial nature of the Annual Corporate Governance Report.

The documentation of the internal control over financial reporting system includes high-level descriptions of the cycles of generation of selected significant financial information, as well as detailed descriptions of the prioritised risks of error and of the controls designed to mitigate or manage them. The description of the controls includes the evidence to be obtained in the implementation thereof, which is necessary for its review.

Each of the closing processes performed at the business units is regarded as a cycle, and the same is true of all the closing activities performed at the corporate level, of the global consolidation process, and of the process for preparation of the notes to the accounts. As a result, all such activities are subject to the methodological process described in the section relating to risks.

The specific review of critical accounting judgements and significant estimates, assessments, and projections is subject to specific controls within the model, since this type of matter entails the identification of risks of error in the different cycles in which they are made. In many cases, the evidence of such specific controls is the media supporting such reviews.

Independently of the certification process followed in the countries, businesses, and corporate areas, the Audit and Risk Supervision Committee, again with the support of the Internal Audit Division, performs an overall review of financial information on a quarterly basis, ensuring that the half-yearly financial reports and the quarterly management statements are prepared using the same accounting standards as the annual financial reports, verifying the proper delimitation of the scope of consolidation as well as the proper application of generally accepted accounting principles and international financial reporting standards.
F.3.2. Policies and procedures of internal control over reporting systems (including, among others, security of access, control of changes, operation thereof, operational continuity, and segregation of duties) that provide support for the significant processes of the entity in connection with the preparation and publication of financial information.

The controls used to mitigate or manage the risks of error in financial information include controls relating to the most significant computer applications, such as controls of user access permissions or of the integrity of the transfer of information between applications, the transaction, and change management.

In addition, the Iberdrola Group has guidelines or regulations as well as procedures for internal control over reporting systems in connection with software acquisition and development, the acquisition of system infrastructure, software installation and testing, change management, service level management, management of the services provided by third parties, system security and access thereto, management of incidents, operation management, continuity of operations, and segregation of duties.

Such guidelines and procedures (which, in some cases, differ according to geographical area or type of solution and are in the process of progressive standardisation) are applied across all information systems supporting significant financial information generation processes, and on the infrastructure required for the operation thereof.

The Iberdrola Group also has an Information Technology Policy that contemplates the management of risks associated with the use, ownership, operation, participation, influence, and adoption of specific information technology, and the processes for the management and control thereof.

This provides a general controls model integrated with the risk management model that allows for a global evaluation of the risks relating to information technology.

This model includes a periodic evaluation of the effectiveness of the controls on information technologies implemented in the area of the financial systems, adopting the appropriate measures if any incident is detected.

The Systems director of Iberdrola certifies the effectiveness of the internal controls established on information systems on an annual basis.

F.3.3. Internal control policies and procedures designed to supervise the management of activities outsourced to third parties, as well as those aspects of assessment, calculation, or valuation entrusted to independent experts, which may materially affect the accounts.

Generally speaking, the Iberdrola Group has no significant duties outsourced to third parties that have a direct impact on financial information. The assessments, calculations, or valuations entrusted to third parties that may materially affect the accounts are regarded as significant financial information generating activities that lead, if appropriate, to the identification of high-priority risks of error, which, in turn, entails the design of associated internal controls. Such controls cover the review and internal approval of the basic assumptions to be used, as well as the review of the assessments, calculations, or valuations made by outside parties, by verifying them against calculations made internally.

F.4. Information and communication

Indicate whether at least the following are in place and describe their main features:
F.4.1. A specific function charged with defining and updating accounting policies (accounting policy area or department) and with resolving questions or conflicts arising from the interpretation thereof, maintaining fluid communications with those responsible for operations at the organisation, as well as an updated accounting policy manual that has been communicated to the units through which the entity operates.

The Accounting Regulations Division, reporting directly to the director of Administration and Control, is responsible for defining and updating accounting policies, as well as for resolving questions or conflicts stemming from the interpretation thereof. It maintains fluid communications with those responsible for the operation of the organisation and, especially, with those responsible for accounting functions. It publishes a quarterly newsletter, widely disseminated within the Group, on new accounting developments in connection with IFRS, which includes regulation updates (laws and regulations that come into force, drafts issued, laws and regulations enacted, laws approved and pending approval by the European Union, and expected future laws and regulations) as well as accounting questions asked internally, together with the conclusions in respect thereof.

The Accounting Regulations Division is also responsible for continuously updating the Group’s accounting practices manual and for the appropriate dissemination thereof.

The accounting manual is updated continuously. For this purpose, the Accounting Regulations Division analyses whether new developments or changes in accounting matters have an effect on the Group’s accounting policies, as well as the effective date of each of such laws or regulations. When a new law or regulation, or interpretation thereof, is identified as having an effect on the Group’s accounting policies, it is included in the manual and is also communicated to those responsible for preparing the Group’s financial information by means of the quarterly newsletters mentioned above, and there is an update of the application in which the manual is maintained.

The updated version of the manual is available in an application on the Group's internal network. This application is also accessible by VPN over the internet and can be linked to e-mail. Any change or the inclusion of a document within the manual generates a notice by e-mail to all users.

F.4.2. Mechanisms to capture and prepare financial information with standardised formats, to be applied and used by all units of the entity or the group, supporting the principal accounts and the notes thereto, as well as the information provided on the internal control over financial reporting system.

The mechanism to capture and prepare the information supporting the principal accounts of the Iberdrola Group is based primarily on the use of a unified management consolidation tool (known as BPC) accessible from all geographical areas, currently deployed across the entire Group.

A large portion of the information supporting the breakdowns in and notes to the financial information is included in the consolidation tool, and the rest is captured on standardised spreadsheets known as reporting packages, which are prepared for the half-year and year-end closing processes.

F.5. Supervision of the operation of the system

Indicate and describe the main features of at least the following:

F.5.1. The activities of supervision of the internal control over financial reporting system (ICFRS) performed by the audit committee, as well as whether the entity has an internal audit function whose duties include providing support to the committee in its work of supervising the internal control system, including the internal control over financial reporting system. Information is also to be provided concerning the scope of the assessment of the internal control over financial reporting system performed during the financial year and on the procedure whereby the
person or division charged with performing the assessment reports the results thereof, whether the entity has an action plan in place describing possible corrective measures, and whether the impact thereof on financial information has been considered.

The activities of supervision of the internal control over financial reporting system carried out by the Audit and Risk Supervision Committee include basically: (i) monitoring compliance with the certification process by the various persons or divisions responsible for financial information, (ii) reviewing the design and operation of the internal control system, with the support of the Internal Audit Area Division, to assess the effectiveness thereof, and (iii) periodic meetings with external auditors, internal auditors, and senior management to review, analyse, and discuss financial information, the group companies covered, and the accounting standards applied, as well as, where appropriate, the significant internal control weaknesses detected.

It should be noted that on an annual basis, those responsible for the preparation of the financial information of each country subholding company, each head of business company, and each corporate area carry out a review of the design and operation of the internal control system within their area of responsibility in order to assess the effectiveness thereof, in a process coordinated by the Internal Control Division.

To that end, an analysis is made of whether, as a result of the changing circumstances in which the Group operates (changes in organisation, systems, processes, products, regulation, etc.), changes in identified risks need to be included and prioritised. A review is also made of whether the design of the controls to mitigate or manage the risks that may have changed is appropriate, as well as whether the controls have functioned properly, in accordance with their design.

The conclusions of this annual review, both as regards the deficiencies detected (which are classified as serious, medium, or slight, according precisely to their possible impact on financial information) and with respect to the action plans to correct them, are submitted at an annual seminar session chaired by the director of Administration and Control, at which the Internal Audit Area Division is also in attendance. At such meeting, conclusions are reached concerning the effectiveness of the internal control system at each of the different areas for which they are responsible and, overall, at the Group as a whole.

The most significant conclusions of the review performed are subsequently submitted to the Audit and Risk Supervision Committee within the framework of the periodic meetings with the director of Administration and Control.

Independently of the foregoing, the Internal Audit Area (which reports to the chairman & chief executive officer and is functionally controlled by the Audit and Risk Supervision Committee, and which, as provided in the Basic Internal Audit Regulations of Iberdrola, S.A. and the Companies of its Group, has the primary roles of working with the Audit and Risk Supervision Committee to further develop the powers thereof and to proactively ensure the proper operation of the information technology, internal control, and risk management systems of the Company), conducts an independent review of the design and operation of the internal control system in support of said Committee, identifies deficiencies, and draws up recommendations for improvement.

As a result thereof, the Internal Audit Area Division continuously monitors the various action plans agreed with the different organisations to correct the deficiencies detected and to implement the suggestions for improvement agreed with the organisations.

The period that the Internal Audit Area Division plans for an in-depth review of the entire internal control system is three years.

Specifically, during financial year 2016, more than 50 cycles corresponding to the companies Avangrid, Inc., Scottish Power, Ltd., Iberdrola España, S.A., Iberdrola México, S.A. de C.V., Elektro Redes, S.A., and Iberdrola Inmobiliaria, S.A. were reviewed, as was the Human Resources corporate management.

In addition, the Internal Audit Area Division performs a review of the operation of the internal controls regarded as most critical on a half-yearly basis, on the dates of the half-year and year-end closing.

The combination of the three-year reviews and the half-yearly reviews of the most critical controls enables the Internal Audit Area Division to perform an assessment of the internal control system, as regards the design and operation thereof, and to issue an opinion on the effectiveness of the internal controls established to ensure the reliability of financial information, which it submits to the Audit and Risk Supervision Committee within the framework of their periodic meetings.

F.5.2. Whether it has a discussion procedure whereby the auditor (as provided in the Technical Auditing Standards), the internal audit function, and other
experts can inform senior management and the audit committee or the directors of the entity of the significant internal control weaknesses detected during the review of the annual accounts or such other reviews as may have been entrusted to them. Information shall also be provided on whether it has an action plan to seek to correct or mitigate the weaknesses found.

Generally speaking, the procedure for discussion of significant internal control weaknesses detected is based on periodic meetings of the various agents.

Thus, the Audit and Risk Supervision Committee holds meetings, both at the half-year and at the year-end closing, with the external auditors, the internal auditors, and the division responsible for preparing financial information, in order to discuss any significant aspect of the preparation process and of the resulting financial information.

Specifically, pursuant to the provisions of its Regulations (scope of authority), the Audit and Risk Supervision Committee of Iberdrola has, among other duties, the duty of reviewing, together with the auditors, the significant weaknesses of the internal control system detected in the course of the audit. To such end, the auditor appears before such Committee on an annual basis to submit recommendations in connection with the internal control weaknesses identified during the review of the accounts. Any weaknesses described by the auditor are monitored on an ongoing basis by the Committee, with the support of the Internal Audit Area Division. The auditors did not highlight any significant internal control weaknesses during financial year 2016.

Furthermore, the division responsible for preparing the consolidated accounts also holds meetings with the external auditors and with the internal auditors, both at the half-year and at the year-end closing, to discuss significant issues relating to financial information.

**F.6. Other significant information.**

Iberdrola has an internal model or system for control over financial reporting, the purpose of which is to reasonably ensure the reliability of the financial information. It is important to note that the development of this model, which commenced in 2006, was not the product of a legal requirement, but rather derived from the firm belief of both the Board of Directors and the senior management of the Company that in a context of growth and internationalisation as the one that could already be envisaged for the Group, an explicit and auditable internal control system would contribute to maintaining and improving its control environment and the quality of financial information; it would also boost investors’ trust because of its effects on the transparency, reputation, and good governance of Iberdrola and of the subsidiaries making up the Iberdrola Group.

The Internal Control over Financial Reporting Model or System (ICFRS) of the Iberdrola Group rests on two main pillars: certification and internal control proper.

Certification is a half-yearly process in which those responsible for financial information in the different areas of the Company certify that: (i) the financial information they deliver to Iberdrola for purposes of consolidation does not contain any material errors or omissions and provides a fair view of the results and the financial condition within their area of responsibility, and (ii) they are responsible for establishing the ICFRS within their area of responsibility and have found, upon evaluation, that the system is effective. The text of these certifications is inspired by the form of certification established in section 302 of the U.S. Sarbanes-Oxley Act.

The culmination of the half-yearly process is a joint certification that the chairman & chief executive officer and the director of Administration and Control submit to the Board of Directors.

The other pillar supporting this model, i.e. internal control proper, is patterned on the reference framework described in the report entitled “Internal Control Integrated Framework” of the Committee of Sponsoring Organisations of the Treadway Commission (COSO), and is primarily aimed at providing a reasonable level of security in achieving the aim of reliability of the financial information.

The methodology used by Iberdrola for the development and continuous update of internal control consists of the following stages or steps: (i) analysis and selection of significant financial information, (ii) grouping such information into cycles or large processes in which it is generated, (iii) identification, assessment, and prioritisation of risks of error in financial information within selected cycles, (iv) design and operation of controls in order to mitigate or manage selected risks, and (v) monitoring and update of
the previous steps in order to continuously adapt the model to the circumstances of corporate activities. One of the salient features of the design of this model is that it seeks to guarantee the quality of financial information during all months of the year, such that it is not limited only to the periods of year-end or half-year closings.

This feature is strengthened through the use of a specific software application developed in-house by the Group that allows for monitoring of the status of controls at all times.

Another important feature of the model is that it extends the culture of internal control to all of the organisations, both corporate and business, that significantly contribute to generating financial information, by assigning personal responsibility for the implementation and documentation of controls.

All relevant documents in connection with Iberdrola’s ICFRS, both regarding the certification process and internal control proper, are contained in the aforementioned computer application.

Those responsible for implementing the controls enter into the computer application evidence of such controls having been performed, and then evaluate the results obtained, which they rate as satisfactory or non-satisfactory. This allows for the internal control situation to be monitored in real time, and also makes it possible to act promptly on any deficiencies detected.

In addition, those responsible for control at the country subholding and business subholding companies, as well as those responsible for the corporate areas, carry out an annual review of the design and operation of the SCIIF, as a systematic process for updating such model in order to adapt it to the changing circumstances of corporate activities.

The annual review is coordinated by the Internal Control Division, which is also responsible for managing the computer application and coordinating the development of the ICFRS in the various business units and corporate areas of the Group.

Moreover, the Internal Audit Area Division, which is responsible for supervising internal control as part of its duty of support of the Audit and Risk Supervision Committee, performs an independent review of the design and operation of the ICFRS, identifying deficiencies and formulating recommendations for improvement. Such review is carried out in accordance with an established policy of rotation among the different cycles within the model over a period of three years.

The Internal Audit Area Division also performs a half-yearly independent review of the effectiveness of the internal controls established to guarantee the reliability of financial information. It also reviews the process for certification of financial information on a half-yearly basis. The conclusions of such reviews are submitted to the Audit and Risk Supervision Committee, which, if appropriate, adopts such conclusions and submits them in turn to the Board of Directors.

The current scope of the ICFRS is such that, based on materiality standards, it covers the entire Iberdrola Group. At present, more than 1,000 persons within the Group use the software application, both to document evidence of the performance of more than 2,300 controls (which mitigate or manage more than 900 risks of error in financial information that have been prioritised) and to monitor, analyse, adjust, and assess the ICFRS.

Furthermore, approximately 70 officers who participate in the process of certification of the accuracy of information under their responsibility do so by using an electronic signature directly on the computer application.

As a consequence of all of the foregoing, the final result of the certification process, which is based on the situation of internal control proper, can be reviewed by the Board of Directors of Iberdrola as one of the significant guarantees of reliability in connection with the preparation of the Group’s annual and interim financial information.

F.7 External audit report

Report on:

F.7.1. Whether the information on the internal control over financial reporting system has been reviewed by the external auditor, in which case the entity should include the respective report as an exhibit. Otherwise, it should provide the reasons therefor.

The information on the internal control over financial reporting system sent to the markets has not been
reviewed by the external editor for reasons of consistency with the fact that the rest of the information set forth in the Annual Corporate Governance Report is only reviewed by the auditor in connection with the accounting information contained in said Report. It is also believed that having the information on the internal control over financial reporting system reviewed externally would in a certain manner overlap the internal control review to be performed by the external auditor, according to technical auditing standards, within the context of the audit of the accounts.
G. DEGREE TO WHICH CORPORATE GOVERNANCE RECOMMENDATIONS ARE FOLLOWED

State the company's degree of compliance with the recommendations of the Good Governance Code of Listed Companies.

If the company does not comply with any recommendation or follows it partially, there must be a detailed explanation of the reasons providing shareholders, investors, and the market in general with sufficient information to assess the company’s course of action. Generalised explanations will not be acceptable.

1. The bylaws of listed companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other obstacles to the takeover of the company by means of share purchases on the market

   Complies ☒ Explain ☒

   Article 29.2 of the By-Laws provides that “No shareholder may cast a number of votes greater than those corresponding to shares representing ten (10%) per cent of share capital, even if the number of shares held exceeds such percentage of the share capital. This limitation does not affect votes corresponding to shares with respect to which a shareholder is holding a proxy as a result of the provisions of article 23 above, provided, however, that with respect to the number of votes corresponding to the shares of each shareholder represented by proxy, the limitation set forth above shall apply”.

   Section 3 of such article adds: “The limitation set forth in the preceding section shall also apply to the maximum number of votes that may be cast collectively or individually by two or more shareholders that are entities or companies belonging to the same group. Such limitation shall also apply to the number of votes that may be cast collectively or individually by an individual and the shareholder entity, entities, or companies controlled by such individual. A group shall be deemed to exist under the circumstances provided by law, and also when a person controls one or more entities or companies”.

   Iberdrola believes that the limitation on the maximum number of votes that may be cast by a single shareholder, or by several shareholders belonging to the same group or, if applicable, acting in concert, is a measure to protect the many minority shareholders, whose investment is thus guarded from any transaction that is contrary to the corporate interest of Iberdrola. In this regard, it should be noted that approximately one-fourth of Iberdrola’s capital is held by retail investors, who thus have little room to manoeuvre and respond to a possible influence-seeking shareholder that owns a non-controlling interest and does not reach the threshold requiring a takeover bid, and whose interest is not totally in line with the corporate interest.

   It should also be noted that such voting limitation has been in effect since 16 June 1990, the date on which the General Shareholders’ Meeting was held at which it was resolved, by unanimous vote of the attendees, to bring the By-Laws of the Company (then doing business as Iberduero, S.A.) into line with the restated text of the Companies Act approved by Royal Legislative Decree 1564/1989 of 22 December. This shows the level of corporate consensus that has existed on such voting limitation from the very beginning, which has been confirmed by the fact that such limitation has remained unchanged through various by-law amendments passed by the shareholders at General Shareholders’ Meetings. In turn, it reflects the will of the shareholders to increase their bargaining power in the event of hostile offers or transactions.

   In any event, article 50 of the current By-Laws establishes the instances of removal of such voting limitation in the event that the Company is the target of a takeover bid that receives the required shareholder approval, in which case the provisions of section 527 of the Companies Act prevail. Pursuant to the foregoing, it cannot be deemed that the limitation on the maximum number of votes that may be cast by a shareholder constitutes an obstacle to a takeover bid.

2. When a dominant and subsidiary company are both listed, they should provide detailed disclosure on:

   a) The activity they engage in and any business dealings between them, as well as between the listed subsidiary and other group companies.
b) The mechanisms in place to resolve possible conflicts of interest.

Complies ☒ Complies in part ☐ Explain ☐ Not applicable ☐

3. During the annual general meeting the chairman of the board should verbally inform shareholders in sufficient detail of the most relevant aspects of the company’s corporate governance, supplementing the written information circulated in the annual corporate governance report. In particular:

a) Changes taking place since the previous annual general meeting.

b) The specific reasons for the company not following a given Good Governance Code recommendation, and any alternative procedures followed in its stead.

Complies ☐ Complies in part ☒ Explain ☐

Iberdrola is a very proactive company in maintaining direct contact with its shareholders. As reported in the Engagement Report, the contact occurs throughout the year, beyond just the holding of the General Shareholders’ Meeting. Within this context, the communication is bilateral and with all types of shareholders: institutional, retail, domestic, and foreign. The Engagement Report sets out the various channels used for these purposes.

These encounters are reported with a description of Iberdrola’s practices and new techniques. This also includes the level of compliance with the recommendations of the Good Governance Code of Listed Companies.

The chairman’s speech at the 2016 General Shareholders’ Meeting covered various topics, including the Company’s corporate governance. A general reference was made to the level of compliance with the Good Governance Code of Listed Companies, with special emphasis on the explanation for non-compliance with recommendation 1, as it is a key element in the Company’s corporate governance strategy.

4. The company should draw up and implement a policy of communication and contacts with shareholders, institutional investors and proxy advisors that complies in full with market abuse regulations and accords equitable treatment to shareholders in the same position.

This policy should be disclosed on the company’s website, complete with details of how it has been put into practice and the identities of the relevant interlocutors or those charged with its implementation.

Complies ☒ Complies in part ☐ Explain ☐

5. The board of directors should not make a proposal to the general meeting for the delegation of powers to issue shares or convertible securities without pre-emptive subscription rights for an amount exceeding 20% of capital at the time of such delegation.

When a board approves the issuance of shares or convertible securities without pre-emptive subscription rights, the company should immediately post a report on its website explaining the exclusion as envisaged in company legislation.

Complies ☒ Complies in part ☐ Explain ☐
6. Listed companies drawing up the following reports on a voluntary or compulsory basis should publish them on their website well in advance of the annual general meeting, even if their distribution is not obligatory.

   a) Report on auditor independence.
   b) Reviews of the operation of the audit committee and the nomination and remuneration committee.
   c) Audit committee report on third-party transactions.
   d) Report on the corporate social responsibility policy.

   Complies  x  Complies in part  Explain  

7. The committee should broadcast its general meetings live on the corporate website.

   Complies  x  Explain  

8. The audit committee should strive to ensure that the board of directors can present the company's accounts to the general meeting without limitations or qualifications in the auditor's report. In the exceptional case that qualifications exist, both the chairman of the audit committee and the auditors should give a clear account to shareholders of their scope and content.

   Complies  x  Complies in part  Explain  

9. The company should disclose its conditions and procedures for admitting share ownership, the right to attend general meetings and the exercise or delegation of voting rights, and display them permanently on its website.

   Such conditions and procedures should encourage shareholders to attend and exercise their rights and be applied in a non-discriminatory manner.

   Complies  x  Complies in part  Explain  

10. When an accredited shareholder exercises the right to supplement the agenda or submit new proposals prior to the general meeting, the company should:

    a) Immediately circulate the supplementary items and new proposals.
    b) Disclose the model of attendance card or proxy appointment or remote voting form duly modified so that new agenda items and alternative proposals can be voted on in the same terms as those submitted by the board of directors.
    c) Put all these items or alternative proposals to the vote applying the same voting rules as for those submitted by the board of directors, with particular regard to presumptions or deductions about the direction of votes.
    d) After the general meeting, disclose the breakdown of votes on such supplementary items or alternative proposals.

   Complies  x  Complies in part  Explain  Not applicable  

11. In the event that a company plans to pay for attendance at the general meeting, it should first establish a general, long-term policy in this respect.

Complies [ ] Complies in part [ ] Explain [ ] Not applicable [ ]

12. The board of directors should perform its duties with unity of purpose and independent judgement, according the same treatment to all shareholders in the same position. It should be guided at all times by the company's best interest, understood as the creation of a profitable business that promotes its sustainable success over time, while maximising its economic value.

In pursuing the corporate interest, it should not only abide by laws and regulations and conduct itself according to principles of good faith, ethics and respect for commonly accepted customs and good practices, but also strive to reconcile its own interests with the legitimate interests of its employees, suppliers, clients and other stakeholders, as well as with the impact of its activities on the broader community and the natural environment.

Complies [ ] Complies in part [ ] Explain [ ]

13. The board of directors should have an optimal size to promote its efficient functioning and maximise participation. The recommended range is accordingly between five and fifteen members.

Complies [ ] Explain [ ]

14. The board of directors should approve a director selection policy that:

a) Is concrete and verifiable.

b) Ensures that appointment or re-election proposals are based on a prior analysis of the board's needs.

c) Favours a diversity of knowledge, experience and gender.

The results of the prior analysis of board needs should be written up in the nomination committee's explanatory report, to be published when the general meeting is convened that will ratify the appointment and re-election of each director.

The director selection policy should pursue the goal of having at least 30% of total board places occupied by women directors before the year 2020.

The nomination committee should run an annual check on compliance with the director selection policy and set out its findings in the annual corporate governance report.

Complies [ ] Complies in part [ ] Explain [ ]

15. Proprietary and independent directors should constitute an ample majority on the board of directors, while the number of executive directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.

Complies [ ] Complies in part [ ] Explain [ ]
16. The percentage of proprietary directors out of all non-executive directors should be no greater than the proportion between the ownership stake of the shareholders they represent and the remainder of the company’s capital.

This criterion can be relaxed:

a) In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings.

b) In companies with a plurality of shareholders represented on the board but not otherwise related.

Complies  
Explain  

17. Independent directors should be at least half of all board members.

However, when the company does not have a large market capitalisation, or when a large cap company has shareholders individually or concertedly controlling over 30 percent of capital, independent directors should occupy, at least, a third of board places.

Complies  
Explain  

18. Companies should disclose the following director particulars on their websites and keep them regularly updated:

a) Professional profile and biographical data.

b) Directorships held in other companies, listed or otherwise, and other paid activities they engage in, of whatever nature.

c) Statement of the director class to which they belong, in the case of proprietary directors indicating the shareholder they represent or have links with.

d) Dates of their first appointment as a board member and subsequent re-elections.

e) Shares held in the company, and any options on the same.

Complies  
Complies in part  
Explain  

19. Following verification by the nomination committee, the annual corporate governance report should disclose the reasons for the appointment of proprietary directors at the urging of shareholders controlling less than 3 percent of capital; and explain any rejection of a formal request for a board place from shareholders whose equity stake is equal to or greater than that of others applying successfully for a proprietary directorship.

Complies  
Complies in part  
Explain  
Not applicable  

20. Proprietary directors should resign when the shareholders they represent dispose of their ownership interest in its entirety. If such shareholders reduce their stakes, thereby losing some of their entitlement to proprietary directors, the latters’ number should be reduced accordingly.

Complies  
Complies in part  
Explain  
Not applicable  

70
21. The board of directors should not propose the removal of independent directors before the expiry of their tenure as mandated by the bylaws, except where they find just cause, based on a proposal from the nomination committee. In particular, just cause will be presumed when directors take up new posts or responsibilities that prevent them allocating sufficient time to the work of a board member, or are in breach of their fiduciary duties or come under one of the disqualifying grounds for classification as independent enumerated in the applicable legislation.

The removal of independent directors may also be proposed when a takeover bid, merger or similar corporate transaction alters the company's capital structure, provided the changes in board membership ensue from the proportionality criterion set out in recommendation 16.

Complies ☒ Explain ☐

22. Companies should establish rules obliging directors to disclose any circumstance that might harm the organisation's name or reputation, tendering their resignation as the case may be, and, in particular, to inform the board of any criminal charges brought against them and the progress of any subsequent trial.

The moment a director is indicted or tried for any of the offences stated in company legislation, the board of directors should open an investigation and, in light of the particular circumstances, decide whether or not he or she should be called on to resign. The board should give a reasoned account of all such determinations in the annual corporate governance report.

Complies ☒ Complies in part ☐ Explain ☐

23. Directors should express their clear opposition when they feel a proposal submitted for the board's approval might damage the corporate interest. In particular, independents and other directors not subject to potential conflicts of interest should strenuously challenge any decision that could harm the interests of shareholders lacking board representation.

When the board makes material or reiterated decisions about which a director has expressed serious reservations, then he or she must draw the pertinent conclusions. Directors resigning for such causes should set out their reasons in the letter referred to in the next recommendation.

The terms of this recommendation also apply to the secretary of the board, even if he or she is not a director.

Complies ☒ Complies in part ☐ Explain ☐ Not applicable ☐

24. Directors who give up their place before their tenure expires, through resignation or otherwise, should state their reasons in a letter to be sent to all members of the board. Whether or not such resignation is disclosed as a material event, the motivating factors should be explained in the annual corporate governance report.

Complies ☒ Complies in part ☐ Explain ☐ Not applicable ☐

25. The nomination committee should ensure that non-executive directors have sufficient time available to discharge their responsibilities effectively.
The board of directors regulations should lay down the maximum number of company boards on which directors can serve.

Complies  
Complies in part  
Explain  

26. The board should meet with the necessary frequency to properly perform its functions, eight times a year at least, in accordance with a calendar and agendas set at the start of the year, to which each director may propose the addition of initially unscheduled items.

Complies  
Complies in part  
Explain  

27. Director absences should be kept to a strict minimum and quantified in the annual corporate governance report. In the event of absence, directors should delegate their powers of representation with the appropriate instructions.

Complies  
Complies in part  
Explain  

28. When directors or the secretary express concerns about some proposal or, in the case of directors, about the company's performance, and such concerns are not resolved at the meeting, they should be recorded in the minute book if the person expressing them so requests.

Complies  
Complies in part  
Explain  
Not applicable  

29. The company should provide suitable channels for directors to obtain the advice they need to carry out their duties, extending if necessary to external assistance at the company's expense.

Complies  
Complies in part  
Explain  

30. Regardless of the knowledge directors must possess to carry out their duties, they should also be offered refresher programmes when circumstances so advise.

Complies  
Explain  
Not applicable  

31. The agendas of board meetings should clearly indicate on which points directors must arrive at a decision, so they can study the matter beforehand or gather together the material they need.

For reasons of urgency, the chairman may wish to present decisions or resolutions for board approval that were not on the meeting agenda. In such exceptional circumstances, their inclusion will require the express prior consent, duly minuted, of the majority of directors present.

Complies  
Complies in part  
Explain  

32. Directors should be regularly informed of movements in share ownership and of the views of major shareholders, investors and rating agencies on the company and its group.
33. The chairman, as the person charged with the efficient functioning of the board of directors, in addition to the functions assigned by law and the company's bylaws, should prepare and submit to the board a schedule of meeting dates and agendas; organise and coordinate regular evaluations of the board and, where appropriate, the company's chief executive officer; exercise leadership of the board and be accountable for its proper functioning; ensure that sufficient time is given to the discussion of strategic issues, and approve and review refresher courses for each director, when circumstances so advise.

Complies × Complies in part □ Explain □

34. When a lead independent director has been appointed, the bylaws or board of directors regulations should grant him or her the following powers over and above those conferred by law: chair the board of directors in the absence of the chairman or vice chairmen give voice to the concerns of non-executive directors; maintain contacts with investors and shareholders to hear their views and develop a balanced understanding of their concerns, especially those to do with the company's corporate governance; and coordinate the chairman's succession plan.

Complies × Complies in part □ Explain □ Not applicable □

35. The board secretary should strive to ensure that the board's actions and decisions are informed by the governance recommendations of the Good Governance Code of relevance to the company.

Complies × Explain □

36. The board in full should conduct an annual evaluation, adopting, where necessary, an action plan to correct weakness detected in:

a) The quality and efficiency of the board’s operation.

b) The performance and membership of its committees.

c) The diversity of board membership and competences.

d) The performance of the chairman of the board of directors and the company's chief executive.

e) The performance and contribution of individual directors, with particular attention to the chairmen of board committees.

The evaluation of board committees should start from the reports they send the board of directors, while that of the board itself should start from the report of the nomination committee.

Every three years, the board of directors should engage an external facilitator to aid in the evaluation process. This facilitator's independence should be verified by the nomination committee.

Any business dealings that the facilitator or members of its corporate group maintain with the company or members of its corporate group should be detailed in the annual corporate governance report.
The process followed and areas evaluated should be detailed in the annual corporate governance report.

Complies ☒ Complies in part ☐ Explain ☐

37. When an executive committee exists, its membership mix by director class should resemble that of the board. The secretary of the board should also act as secretary to the executive committee.

Complies ☒ Complies in part ☐ Explain ☐ Not applicable ☐

38. The board should be kept fully informed of the business transacted and decisions made by the executive committee. To this end, all board members should receive a copy of the committee's minutes.

Complies ☒ Complies in part ☐ Explain ☐ Not applicable ☐

39. All members of the audit committee, particularly its chairman, should be appointed with regard to their knowledge and experience in accounting, auditing and risk management matters. A majority of committee places should be held by independent directors.

Complies ☒ Complies in part ☐ Explain ☐

40. Listed companies should have a unit in charge of the internal audit function, under the supervision of the audit committee, to monitor the effectiveness of reporting and control systems. This unit should report functionally to the board's non-executive chairman or the chairman of the audit committee.

Complies ☒ Complies in part ☐ Explain ☐

41. The head of the unit handling the internal audit function should present an annual work programme to the audit committee, inform it directly of any incidents arising during its implementation and submit an activities report at the end of each year.

Complies ☒ Complies in part ☐ Explain ☐ Not applicable ☐

42. The audit committee should have the following functions over and above those legally assigned:

1. With respect to internal control and reporting systems
   a) Monitor the preparation and the integrity of the financial information prepared on the company and, where appropriate, the group, checking for compliance with legal provisions, the accurate demarcation of the consolidation perimeter, and the correct application of accounting principles.
   b) Monitor the independence of the unit handling the internal audit function; propose the selection, appointment, re-election and removal of the head of the internal audit service; propose the service's budget; approve its priorities and work programmes, ensuring that it focuses primarily on the main risks the company is exposed to; receive regular report-backs on its activities; and
verify that senior management are acting on the findings and recommendations of its reports.

c) Establish and supervise a mechanism whereby staff can report, confidentially and, if appropriate and feasible, anonymously, any significant irregularities that they detect in the course of their duties, in particular financial or accounting irregularities.

2. With regard to the external auditor:

a) Investigate the issues giving rise to the resignation of the external auditor, should this come about.

b) Ensure that the remuneration of the external auditor does not compromise its quality or independence.

c) Ensure that the company notifies any change of external auditor to the CNMV as a material event, accompanied by a statement of any disagreements arising with the outgoing auditor and the reasons for the same.

d) Ensure that the external auditor has a yearly meeting with the board in full to inform it of the work undertaken and developments in the company’s risk and accounting positions.

e) Ensure that the company and the external auditor adhere to current regulations on the provision of non-audit services, limits on the concentration of the auditor’s business and other requirements concerning auditor independence.

Complies ☒ Complies in part ☐ Explain ☐

43. The audit committee should be empowered to meet with any company employee or manager, even ordering their appearance without the presence of another senior officer.

Complies ☒ Explain ☐

44. The audit committee should be informed of any fundamental changes or corporate transactions the company is planning, so the committee can analyse the operation and report to the board beforehand on its economic conditions and accounting impact and, when applicable, the exchange ratio proposed.

Complies ☒ Complies in part ☐ Explain ☐ Not applicable ☐

45. The risk control and management policy should identify at least:

a) The different types of financial and non-financial risk the company is exposed to (including operational, technological, financial, legal, social, environmental, political and reputational risks), with the inclusion under financial or economic risks of contingent liabilities and other off-balance-sheet risks.

b) The determination of the risk level the company sees as acceptable.

c) The measures in place to mitigate the impact of identified risk events should they occur.
d) The internal control and reporting systems to be used to control and manage the above risks, including contingent liabilities and off-balance-sheet risks.

46. Companies should establish a risk control and management function in the charge of one of the company's internal department or units and under the direct supervision of the audit committee or some other dedicated board committee. This function should be expressly charged with the following responsibilities:

a) Ensure that risk control and management systems are functioning correctly and, specifically, that major risks the company is exposed to are correctly identified, managed and quantified.

b) Participate actively in the preparation of risk strategies and in key decisions about their management.

c) Ensure that risk control and management systems are mitigating risks effectively in the frame of the policy drawn up by the board of directors.

47. Appointees to the nomination and remuneration committee - or of the nomination committee and remuneration committee, if separately constituted - should have the right balance of knowledge, skills and experience for the functions they are called on to discharge. The majority of their members should be independent directors.

48. Large cap companies should operate separately constituted nomination and remuneration committees.

49. The nomination committee should consult with the company's chairman and chief executive, especially on matters relating to executive directors.

When there are vacancies on the board, any director may approach the nomination committee to propose candidates that it might consider suitable.

50. The remuneration committee should operate independently and have the following functions in addition to those assigned by law:

a) Propose to the board the standard conditions for senior officer contracts.

b) Monitor compliance with the remuneration policy set by the company.

c) Periodically review the remuneration policy for directors and senior officers, including share-based remuneration systems and their application, and ensure that their individual compensation is proportionate to the amounts paid to other directors and senior officers in the company.
d) Ensure that conflicts of interest do not undermine the independence of any external advice the committee engages.

e) Verify the information on director and senior officers' pay contained in corporate documents, including the annual directors' remuneration statement.

51. The remuneration committee should consult with the company's chairman and chief executive, especially on matters relating to executive directors and senior officers.

52. The terms of reference of supervision and control committees should be set out in the board of directors regulations and aligned with those governing legally mandatory board committees as specified in the preceding sets of recommendations. They should include at least the following terms:

a) Committees should be formed exclusively by non-executive directors, with a majority of independents.

b) They should be chaired by independent directors.

c) The board should appoint the members of such committees with regard to the knowledge, skills and experience of its directors and each committee's terms of reference; discuss their proposals and reports; and provide report-backs on their activities and work at the first board plenary following each committee meeting.

d) They may engage external advice, when they feel it necessary for the discharge of their functions.

e) Meeting proceedings should be minuted and a copy made available to all board members.

53. The task of supervising compliance with corporate governance rules, internal codes of conduct and corporate social responsibility policy should be assigned to one board committee or split between several, which could be the audit committee, the nomination committee, the corporate social responsibility committee, where one exists, or a dedicated committee established ad hoc by the board under its powers of self-organisation, with at least the following functions:

a) Monitor compliance with the company's internal codes of conduct and corporate governance rules.

b) Oversee the communication and relations strategy with shareholders and investors, including small and medium-sized shareholders.

c) Periodically evaluate the effectiveness of the company's corporate governance system, to confirm that it is fulfilling its mission to promote the corporate interest and catering, as appropriate, to the legitimate interests of remaining stakeholders.
d) Review the company’s corporate social responsibility policy, ensuring that it is geared to value creation.

e) Monitor corporate social responsibility strategy and practices and assess compliance in their respect.

f) Monitor and evaluate the company’s interaction with its stakeholder groups.

g) Evaluate all aspects of the non-financial risks the company is exposed to, including operational, technological, legal, social, environmental, political and reputational risks.

h) Coordinate non-financial and diversity reporting processes in accordance with applicable legislation and international benchmarks.

Complies ☒ Complies in part ☐ Explain ☐

54. The corporate social responsibility policy should state the principles or commitments the company will voluntarily adhere to in its dealings with stakeholder groups, specifying at least:

a) The goals of its corporate social responsibility policy and the support instruments to be deployed.

b) The corporate strategy with regard to sustainability, the environment and social issues.

c) Concrete practices in matters relative to: shareholders, employees, clients, suppliers, social welfare issues, the environment, diversity, fiscal responsibility, respect for human rights and the prevention of illegal conducts.

d) The methods or systems for monitoring the results of the practices referred to above, and identifying and managing related risks.

e) The mechanisms for supervising non-financial risk, ethics and business conduct.

f) Channels for stakeholder communication, participation and dialogue.

g) Responsible communication practices that prevent the manipulation of information and protect the company’s honour and integrity.

Complies ☒ Complies in part ☐ Explain ☐

55. The company should report on corporate social responsibility developments in its directors’ report or in a separate document, using an internationally accepted methodology.

Complies ☒ Explain ☐

56. Director remuneration should be sufficient to attract individuals with the desired profile and compensate the commitment, abilities and responsibility that the post demands, but not so high as to compromise the independent judgement of non-executive directors.

Complies ☒ Explain ☐
57. Variable remuneration linked to the company and the director's performance, the award of shares, options or any other right to acquire shares or to be remunerated on the basis of share price movements, and membership of long-term savings schemes such as pension plans should be confined to executive directors.

The company may consider the share-based remuneration of non-executive directors provided they retain such shares until the end of their mandate. This condition, however, will not apply to shares that the director must dispose of to defray costs related to their acquisition.

Complies [x] Complies in part [☐] Explain [☐]

58. In the case of variable awards, remuneration policies should include limits and technical safeguards to ensure they reflect the professional performance of the beneficiaries and not simply the general progress of the markets or the company's sector, or circumstances of that kind.

In particular, variable remuneration items should meet the following conditions:

a) Be subject to predetermined and measurable performance criteria that factor the risk assumed to obtain a given outcome.

b) Promote the long-term sustainability of the company and include non-financial criteria that are relevant for the company's long-term value, such as compliance with its internal rules and procedures and its risk control and management policies.

c) Be focused on achieving a balance between the delivery of short, medium and long-term objectives, such that performance-related pay rewards ongoing achievement, maintained over sufficient time to appreciate its contribution to long-term value creation. This will ensure that performance measurement is not based solely on one-off, occasional or extraordinary events.

Complies [x] Complies in part [☐] Explain [☐] Not applicable [☐]

59. A major part of variable remuneration components should be deferred for a long enough period to ensure that predetermined performance criteria have effectively been met.

Complies [x] Complies in part [☐] Explain [☐] Not applicable [☐]

60. Remuneration linked to company earnings should bear in mind any qualifications stated in the external auditor's report that reduce their amount.

Complies [x] Complies in part [☐] Explain [☐] Not applicable [☐]

61. A major part of executive directors’ variable remuneration should be linked to the award of shares or financial instruments whose value is linked to the share price.

Complies [x] Complies in part [☐] Explain [☐] Not applicable [☐]

62. Following the award of shares, share options or other rights on shares derived from the remuneration system, directors should not be allowed to transfer a number of
shares equivalent to twice their annual fixed remuneration, or to exercise the share options or other rights on shares for at least three years after their award.

The above condition will not apply to any shares that the director must dispose of to defray costs related to their acquisition.

Contracts with executive directors and senior officers signed as from 2011 provide severance for contractual termination equal to a maximum of two times annual salary in the event of termination of their relationship with the Company, provided that termination of the relationship is not the result of a breach attributable thereto or solely due to a voluntary decision thereof.

The Company included guarantee clauses of up to five years in contracts with its key officers 16 years ago. Subsequently, in 2001, when the current chairman & CEO joined Iberdrola, he received the treatment in effect for such officers, in order to achieve an effective and sufficient level of loyalty. As chairman & chief executive officer, he is currently entitled to three times annual salary.

The Board of Directors has analysed this situation, the treatment of which is necessarily collective in nature. Any reduction in the salary multiples would carry high costs for the Company, for which reason the Board of Directors believes that it is most appropriate not to change the status quo. Any proposed reduction in the salary multiples would have a higher cost for the Company, as the amount of the contingency will gradually decrease due to the passage of time, resulting in payments far smaller than any possible reduction in the agreed severance payment, taking into account the average age of the affected group and the low likelihood of the guarantees being enforced. In this regard, it should be pointed out that at year-end 2014, there were 62 officers in this group. By year-end 2015, the number had decreased to 52. By year-end 2016, the number has decreased again to 45, without the enforcement of any guarantee clause.
H. OTHER INFORMATION OF INTEREST

1. If there are any significant aspects regarding corporate governance at the company or at entities of the group that is not included in the other sections of this report, but should be included in order to provide more complete and well-reasoned information regarding the corporate governance structure and practices at the entity or its group, briefly describe them.

2. In this section, you may also include any other information, clarification, or comment relating to the prior sections of this report to the extent they are relevant and not repetitive.

Specifically, state whether the company is subject to laws other than Spanish laws regarding corporate governance and, if applicable, include such information as the company is required to provide that is different from the information required in this report.

3. The company may also state whether it has voluntarily adhered to other international, industrial, or other codes of ethical principles or good practices. If so, identify the code in question and the date of adherence thereto. In particular, mention whether there has been adherence to the Code of Good Tax Practices of 20 July 2010.

MISSION, VISION, AND VALUES

Iberdrola is fully aware of its importance as a business, institutional, and social reality, and cannot nor does it want to be estranged from the challenges entailed in its position as the controlling company of one of the leading global groups in the electricity sector. The responsibilities arising from all of the above go beyond the strictly economic arena, fully reaching the social level.

Along these lines, the efforts of Iberdrola’s Board of Directors since the General Shareholders’ Meeting held in 2015 have been directed towards a consideration of the relations that the Company and the Group should maintain with its Stakeholders, beyond its shareholders and the financial community - its workforce, regulatory entities, its customers, its suppliers, the media, society in general, and the environment, among others.

Specifically, during the month of October 2015, the Board of Directors engaged in a profound review of the mission, vision, and values of the Group to better conform them to a complex business group, with the goal of leadership in all facets of its business (both economically and especially socially) using a new focus that stresses the sustainable creation of value and emphasises the social impact of its activities.

The content of the new mission, vision, and values of the Group have been incorporated into a new rule within the Corporate Governance System: the Mission, Vision, and Values of the Iberdrola group, which contains the corporate philosophy of the Group, inspires and takes form in the By-Laws and in the other rules of its Corporate Governance System, govern the day-to-day activities thereof, channel its leadership role in all of its areas of activity, focus its strategy of maximising social dividends, and guide the ethical behaviour of all personnel participating in the daily construction of the Company’s corporate enterprise.

The Company seeks a social return on all of its activities. Its corporate values reflect its commitment to the sustainable creation of value, ethical principles, transparency and good corporate governance, the development of human resources, social commitment, a sense of belonging, safety and reliability, quality, innovation, protection of the environment, customer focus, and institutional loyalty.

The Company and the other entities belonging to the Group seek to engage all Stakeholders in its business enterprise in accordance with a policy on relations with all of them based on two-way communication and the principles of transparency, active listening and equal treatment, which allows for all of their legitimate interests to be taken into consideration and to effectively disclose information regarding the activities and businesses of the Group.
SECTION A.1

The shareholders acting at the General Shareholders’ Meeting of the Company held on 27 March 2015 approved two increases in share capital by means of scrip issues in order to implement the shareholder compensation system called “Iberdrola Flexible Dividend” (“Iberdrola Dividendo Flexible”), which allows the shareholders to decide whether they prefer to receive all or part of their compensation in cash or in Iberdrola bonus shares.

The second increase in capital took place in January 2016, when the traditional interim dividend for financial year 2015 would otherwise have been paid, and the number of new shares that were issued and floated came to 60,327,000, par value 0.75 euro each, without a share premium, representing approximately 0.95% of the share capital prior to the increase.

The shareholders acting at the Company’s General Shareholders’ Meeting held on 8 April 2016 approved a reduction in share capital by means of the retirement of 157,197,000 treasury shares of Iberdrola representing 2.46% of the share capital.

As a result of such resolution, the share capital of Iberdrola was reduced by the amount of 117,897,750 euros through the retirement of 157,197,000 treasury shares (148,845,827 own shares already in treasury and 8,351,173 shares acquired from the shareholders through the buy-back programme), representing approximately 2.45% of the share capital prior to the reduction. The share capital resulting from the reduction was set at 4,680,000,000.00 euros, corresponding to 6,240,000,000 shares.

The purpose of the reduction in capital was to retire treasury shares, for which reason there was no return of contributions as the Company itself was the holder of the retired shares.

In addition, the shareholders acting at the General Shareholders’ Meeting of the Company held on 8 April 2016 approved, under item six on the agenda, two increases in share capital by means of a scrip issue in order to implement, for the seventh consecutive year, the shareholder remuneration system known as Iberdrola Flexible Dividend.

The first increase in capital took place in July 2016, when the traditional supplementary dividend for financial year 2015 would otherwise have been paid, and the number of new shares that were issued and floated came to 122,079,000, par value 0.75 euro each, without a share premium, representing approximately 1.95% of the share capital prior to the increase. After said increase in capital, the share capital of the Company increased to 4,771,559,250 euros, divided into 6,362,079,000 shares.

The second increase in capital took place in January 2017, when the traditional dividend for financial year 2016 would have been paid. The number of new shares issued and floated came to 97,911,000, par value 0.75 euro each, without a share premium, representing approximately 1.54% of the share capital prior to the increase. After said increase in capital, the share capital of the Company increased to 4,844,992,500 euros, represented by 6,459,990,000 shares.

SECTION A.2

Given that the shares are represented by book entries, no information is available on a daily basis about the interest of shareholders in the share capital. However, since 7 May 2014, Iberdrola is a member within Iberclear of the Communication Service for securities holdings and the balanced list of buyers and sellers upon the terms set forth in Circular No 5/2013 of 27 November. The sources of the information provided are the notices sent by the shareholders to the CNMV and to the Company itself, and the information contained in their respective annual reports and press releases, as well as the information that the Company obtains from Iberclear.

Pursuant to the provisions of section 23.1 of Royal Decree 1362/2007 of 19 October, further developing Law 24/1988 of 28 July on the Securities Market, in connection with the transparency requirements relating to the information on issuers whose securities have been admitted to trading on an official secondary market or other regulated market in the European Union, it is deemed that significant shareholders are the holders of at least 3% of voting rights.

According to available information, the approximate breakdown of the interests in the share capital by type of shareholder is as follows:

- Foreign investors 62.8%
- Domestic entities 13.9%
- Domestic retail investors 23.3%
SECTION A.3

Data at the date of approval of this Report.

SECTION A.8

Iberdrola maintains in treasury 151,224,777 own shares and 1,624,221 shares accumulated through derivatives contracts pending settlement and that are recorded as treasury shares in the consolidated financial statements at 31 December 2016, representing 2.402% of the capital. It also maintains 1,867,929 shares in total return swaps with physical settlement.

Pursuant to the authorisations granted to the Board of Directors by the shareholders at the General Shareholders’ Meeting, during financial year 2016 Iberdrola acquired 247,226,143 shares of its own stock for 1,450,724 thousand euros. Of those, 146,551,785 shares were acquired through discretionary market transactions, while the remaining 100,674,358 shares were acquired through derivatives contracts.

In addition, 6,440,532 own shares were sold for 39,360 thousand euros.

Under such authorisations, Iberdrola has also retired 157,197,000 own shares.

SECTION B.4

The percentage of absentee voting (others) only reflects the votes received by mail. In other words, the votes from non-resident investors (7.15%) and those collected through banks (1.3%) and shareholders service points (0.12%) are not included.

SECTION C.1.3

The complete professional profiles of all the directors are available on the Company’s corporate website (www.iberdrola.com).

SECTION C.1.29

Within the framework of the process of evaluation of the Board of Directors, the lead independent director met individually with each of the directors in order to identify possible improvements in the operation thereof.

SECTION C.1.30

Below is the data on attendance of each and every one of the directors at the meetings of the Board of Directors and its committees during financial year 2016: See Annex.

SECTION C.1.31

The Iberdrola Group has established a certification process by which those responsible for financial information in the different areas of the Company certify that: (i) the financial information they deliver to Iberdrola for purposes of consolidation does not contain any material errors or omissions and provides a fair view of the results and the financial condition within their area of responsibility, and (ii) they are responsible for establishing the IFRS within their area of responsibility and have found, upon evaluation, that the system is effective. The text of these certifications is inspired by the form of certification established in section 302 of the U.S. Sarbanes-Oxley Act.

The culmination of the process is a joint certification that the chairman & chief executive officer and the director of Administration and Control submit to the Board of Directors.

The process is carried out by means of electronic signature in a software application which manages the areas of responsibility and time periods and which serves as a repository of all the documentation generated, allowing for periodic review by the supervisory bodies of the Group.

SECTION C.1.36

The Board of Directors will submit to the shareholders at the 2017 General Shareholders’ Meeting, as item 4 on the agenda, the proposed appointment of KPMG Auditores, S.L. as auditor of the annual accounts of the Company and of its consolidated group.
SECTION D.2
Transactions by shareholders exercising a significant influence on participation in the entity’s financial and operating decisions, with significant influence being understood as having a member of the Board of Directors.

This consideration includes those shareholders that, given their equity interest in the Company, are able to exercise the proportional representation system.

As of the date of this report, only Qatar Investment Authority meets this condition, for which reason the amounts referred to in the period are with respect to the transactions with this shareholder.

The amounts set forth as “profits and other dividends paid” correspond to the cash dividend distributed by the Company and to the free-of-charge allocation rights stemming from the two increases in share capital by means of a scrip issue approved by the shareholders at the General Shareholders’ Meetings, which were sold to the Company at a guaranteed fixed price pursuant to the terms and conditions of such increases.

SECTION D.4
Transactions with subsidiaries and companies in which the Company has an interest that have not been eliminated in the process of consolidation were made in the ordinary course of business of the Company, were carried out under arm’s-length conditions, and are of little significance to accurately reflect the assets, financial condition, and results of operations of the Company.

On 20 July 2010, the Company adhered to the Code of Good Tax Practices, a document approved at the full Forum of Large Businesses (Foro de Grandes Empresas) created by the National Tax Administration Agency (Agencia Estatal de Administración Tributaria) and certain large companies, and which was held on that date.

Pursuant to the provisions of section 2 of the annex of adherence to the Good Tax Practices Code and of subsection 5.b) of the Corporate Tax Policy, the Company reports that it has complied with the provisions of such Code as from the time of approval thereof.

Specifically, it is reported that, during financial year 2016, the Company’s head of tax matters appeared on 22 February 2016 and 18 July 2016 before Iberdrola’s Audit and Risk Supervision Committee to report on compliance with the Corporate Tax Policy, which includes the good tax practices contained in the aforementioned Code, all of which was reported to the Board of Directors.
This annual corporate governance report was approved by the Board of Directors of the company at its meeting of 21 February 2017.

State whether any directors voted against or abstained in connection with the approval of this Report.

Yes [ ] No [X]
