

ADVANTAGES OF ELECTRIC VEHICLES

INCREASED ENERGY EFFICIENCY

Electric vs. Diesel

100 km completed → 4 times cheaper

Same effort, lower consumption.

ENVIRONMENTAL BENEFITS

- Does not burn / generate CO₂ directly
- Emit almost no heat

⊕ EFFICIENCY

- ⊖ Polluting emissions

LOWER IMPACT ON HEALTH

- ~~○~~ Fossil depletion
- ~~○~~ GHG emissions (Greenhouse Gases)

- ⊖ Respiratory diseases
- ⊖ Allergies

REDUCTION OF NOISE POLLUTION

22% Spanish population → Exposed to a sound level higher than 65 decibels*

Motor vehicles are the main source of this pollution.

*Limit set by WHO.

PROMOTING ECOLOGICAL AWARENESS

Opting for sustainable mobility

Countering climate change

Just like you charge your mobile phone every night, you could do the same with your electric vehicle.

ECONOMIC SAVINGS

- It is cheaper to recharge than to refuel
- 90% less mechanical parts
 - ⊖ Garage visits
- FREE parking in blue zone
